RE: PCB 2013-024

Mr. Therriault

Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.

Sincerely,

Dave Pontious

RE: PCB 2013-024

Mr. Therriault

I am tired of breathing the dirty air in Joliet. Midwest Generation has had plenty of time to comply with the safe air rules. I also want to see steps taken to reduce pollution that causes global warming. Please do not let Midwest Generation get away with fouling our air for several more years. Midwest Generation's dirty coal plants in Illinois have been dumping dangerous sulfur dioxide emissions into the air and making local residents sick for far too long. In order to reduce dangerous pollution and save lives in Illinois, I urge you to require the company to meet the pollution reductions it previously agreed to by voting no on the requested variance.
