 ENVIRONMENTAL PROTECTION AGENCY)

ORDER OF THE BOARD (BY MR. DUMELLE):

The petition of May 8 is inadequate in that it does not give the frequency of dosage with copper sulfate requested; the resulting concentrations of copper in the drinking water; the alternative of using biodegradable algicides; or the period over which the variance is required.

The Agency is asked to furnish the petitioner with recent Board opinions on the subject for guidance (City of LaHarpe, et al v. Environmental Protection Agency, #72-168, City of Paris, et al v. Environmental Protection Agency, #72-277). The petitioner should file an amended petition within 30 days and should also file a waiver of the 90-day decision period for the same 30 days. Failure to file the required information shall be grounds for dismissal because of inadequacy.

IT IS SO ORDERED.

I, Christan Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Order was adopted on the 17th day of May, 1973, by a vote of 4 to 0.
