Dear Control Board Members,

I support strong aquatic life standards for the Chicago River.

I have lived next to the Chicago River for over 10 years now, and have seen no change as far as how dirty and polluted it is over that time.

It is important to me that we clean up the river, protect the aquatic life that live in it, and enact strong measures to punish polluters (be they individuals or coal plants).

Sincerely,

Ms. Neda Eftekhar

Dear Control Board Members,

I support strong aquatic life standards for the Chicago River.

The Chicago River provides recreational enjoyment and economic vitality for the people of Chicago. It is critical to keep it clean and safe for people and part of that means keeping it clean and safe for fish and other aquatic life. We can help protect the Chicago River for fish and wildlife by adopting strong aquatic life standards and by adopting measures such as dam removal, fish hotels and other measures.

Sincerely,
Violeta Silva
