Subject: I OPPOSE Ameren's transfer request (PCB 12-126)

PC# ~~2413~~ 3010

Mr. Therriault,

I am certain you have already received a number of emails regarding this issue. I'd like to add my voice to those concerned about this variance. In my opinion it should not have been granted to Ameren in the first place, and there a number of stronger arguments of why Dynegy should not get a transfer. I am particularly concerned that this is being considered without a full public hearing on the issue.
