### GENERAL REMARKS

During the stated date and time, I conducted an inspection of the site known as Murphysboro / Jackie Bentancourt (077 814 5089), with the Jackson County Tax Parcel number 09 28-352-012. This inspection was made as a follow up to three previous inspections and several field visits conducted of the site. During the inspections and field visits, open dumping violations were observed. The inspections resulted in a Violation Notice, an Under Legal Review Notice and an Administrative Citation Warning Notice being sent to Ms. Bentancourt. The last field visit to the site was conducted on July 24, 2013. During this field visit, this inspector spoke with Ms. Bentancourt and told her that open dumping violations were still present at the site. At that time Ms. Bentancourt asked for more time to clean up the site. I told Ms. Bentancourt I would return after six weeks to re-inspect the site.

Weather conditions at the time of the inspection were: Partly cloudy with strong winds and a temperature of approximately 19°F. There was a dusting of snow covering the ground. I was accompanied on this inspection by Kyle Scerena of the Jackson County Health Department.

I drove onto the site and honked my vehicle's horn twice, with no one responding. I exited the vehicle and called out in a loud voice, "health department" several times with no one responding. As I walked to the door of the residence, I observed open dumped waste scattered around the site (Site Sketch; Photos #1 - #6). The waste I observed open dumped at the site included, but was not limited to: used/waste tires, household garbage, plastic containers, a metal chair, a garden hose, dimensional lumber, fiberglass insulation, filled plastic bags and plastic tarpaulins (Site Sketch; Photos #1 - #6). At the time of the inspection, the materials listed as waste above were not in use, not usable in their current condition and were not being stored for future use.

I knocked on the front door of the residence, but no one responded.

The total volume of waste observed was approximately 8 cubic yards.

My inspection ended at approximately 11:30 a.m.
