Inspection Report Narrative

This site was inspected on November 16, 2017 between 10:35 a.m. and 11:15 a.m. by Laurie Rasmus (author of this report) with Nick Burge, both of the Macon County Environmental Management Department (MCEMD). Weather conditions at the time of the inspection were mostly clear skies and a temperature near thirty-seven degrees Fahrenheit with light winds. Twenty-four photographs were recorded. No samples were collected. No other persons were observed on-site.

General Information/Site History/Property Ownership

This rural, residential property is addressed as 11622 N. Kenney Road in the Township of Austin in Macon County, Illinois. According to the Macon County Assessor's records, the property is owned by Edwin D. Lawrence Sr. but a public official reported that Matthew Lawrence resides on the property.

Previously, this property was inspected on September 22, 2004, resulting in the issuance of an Administrative Citation Warning Notice to Mary Lawrence and Luke Landers on October 14, 2004 in regards to apparent violations for open burning.

More recently, an inspection was conducted on September 18, 2017 in response to a report of open burning. Apparent violations were observed during this inspection, resulting in the issuance of an Administrative Citation Warning Notice to Matthew Lawrence on September 27, 2017. No response has been received from Mr. Lawrence as of the writing of this report.

This inspection on November 16, 2017 was conducted to determine compliance with the Act and Regulations.

Inspection Findings

While driving by the property, I observed that the south section of property east of the sheds but west of the field's west margin appeared to have apparent violations in regards to open dumping and open burning. So as to first try to make contact with Matthew Lawrence, I continued to drive north and parked in the driveway of the property's residence. I sounded my vehicle's horn and then walked to the south door of the house with Mr. Burge in accompaniment. I saw that the storm door was ajar and that the main door was partially open. I closed the storm door and then knocked but did not receive a response. Mr. Burge and I then returned to the vehicle and I drove to the south section of the property where open dumping and open burning were apparent.

Mr. Burge waited in the vehicle while I proceeded to walk the area while making observations and recording photographs and geographic data.

I observed an area east of the sheds but west of the west margin of the field, which was approximately 60 feet east-west by 150 feet north south that appeared to be a burn site for construction and demolition debris, off-site generated landscape waste and other waste items (photos 01 – 04, 06 – 16, 22 - 24). The area had patches of scorched earth with remnants of blackened vegetation in the marginal areas of the patches. Waste items that were observed on the ground in these areas included what appeared to be rusted tire beads from tires that had been burned (photo 03), charred and uncharred dimensional lumber, numerous rusty nails, debris that appeared to be burned drywall board, vinyl siding of which some appeared to be partially melted and charred, rusty hardware, ash, fines, charred and uncharred landscape waste that appeared to be generated from off-site, charred and uncharred bricks and brick pieces, charred and uncharred pieces of concrete, food packaging and what appeared to be charred remnants of fiber glass of the type that is used for insulation.

Along the west margin of the apparent burn site, various waste items appeared to be open dumped on the ground (photo 21). Waste items observed included a television set (photo 05) and a cash register (photos 18, 19). Accumulations of landscape waste, which appeared to be off-site generated, were also on the ground in this area. Containers, such as buckets, contained waste items that appeared to be disposed of including rusty cans and various metal parts of which some appeared to be charred and/or rusted (photo 20). Other containers in the area, all of which appeared to be empty, included a red, plastic container of the type used for gasoline, a five-gallon bucket labeled as “hydraulic oil”, and a hinged box (photo 17).

Following my observations, I returned to my vehicle, concluded the inspection and drove from the property with Mr. Burge.
