ENVIRONMENTAL PROTECTION AGENCY	)	

ORDER OF THE BOARD (by Mr. Henss)

Argonne Development Company requested variance from a sewer connection ban (ordered in League of Women Voters vs. North Shore Sanitary District, PCB 70-7) so as to permit construction of 270 housing units in North Chicago and connection of sewers and lines to the North Chicago Treatment Plant owned and operated by the North Shore Sanitary District. Argonne also requested variance to permit sewer connection of a supermarket and gasoline station. None of the facilities for which variance was sought are now in existence but the intention is to construct the housing and commercial facilities when permission is given to connect them to the sewer. There is therefore no existing source of pollution involved in this proceeding.

Petitioner Argonne Development Company now requests that it be permitted to withdraw the variance petition without prejudice to refile at a later date. That motion is allowed.

It is ordered that the variance petition be dismissed without prejudice.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted this 15<sup>th</sup> day of November 1973 by a vote of 5 to 0.
