

Board Adopts Second Notice in Rulemaking to Update Definition of Pollution Control Facility

On April 19, 2012, the Board adopted a second-notice opinion and order for a proposal to amend the definition of “pollution control facility” in Section 101.202 of its procedural rules. The proposal intends only to make the definition consistent with recent Public Acts amending it. The rulemaking is docketed as In the Matter of: Updates to the Definition of “Pollution Control Facility” at Section 101.202 of the Board’s Procedural Rules to Reflect Recent Public Acts (R12-22).

Because the proposal amends only its procedural rules, the Board has not held a hearing in this matter. The Board did not receive a comment during the first-notice comment period. The Board has not substantively amended its first-notice proposal, and submits it to the Joint Committee on Administrative Rules for second-notice review.

Opinions and orders of the Board, hearing transcripts, and other documents in rulemaking records are posted on the Board’s Web site and may be downloaded from the Web without charge. Hard copies may be obtained from the Clerk’s office upon payment of reproduction fees as prescribed by Section 6 of the Freedom of Information Act [5 ILCS 140/6].
