Illinois Pollution Control Board:

We received a letter from you with a remittance for \$4,500.00. We have previously received a letter from the EPA stating that all charges were dismissed and that all areas of concern had been corrected. We had mailed letters of explanations to both the EPA and the Illinois Pollution Control Board at the same time to clear up all areas of concern that were originally filed. We are unclear as to the measures that need to be taken now. Would you please send a clear letter of direction? We would appreciate any information you can give us to resolve this situation. Thank you.
