PETITION OF) AS 2003-04
ARGONNE NATIONAL LABORATORY)
FOR AN ADJUSTED STANDARD)
FROM 35 Ill. Adm. Code 218.182)

SUBMISSION OF CERTIFICATE OF PUBLICATION IN AS 2003-04

Pursuant to 35 Ill. Adm. Code 104.410, Argonne National Laboratory (Argonne), as represented by the United States Department of Energy and The University of Chicago, hereby submits the Certificate of Publication of the legal notice required by 35 Ill. Adm. Code 104.408 in connection with the above-captioned matter, and states as follows:

1. On May 19, 2003, Argonne filed its MOTION TO REFILE ADJUSTED STANDARD PETITION AND INCORPORATE THE RECORD IN AS 2003-3.
2. Pursuant to 35 Ill. Adm. Code 104.408, Argonne caused publication of a notice advertisement on May 24, 2003 in the Chicago Sun-Times, a newspaper published in the city of Chicago, County of Cook, and the State of Illinois, and of general circulation throughout said county and state, including DuPage County, in which Argonne is located.
3. Pursuant to 35 Ill. Adm. Code 104.410, Argonne is hereby submitting the Certificate of Publication in this matter. The Certificate of Publication is attached hereto.

WHEREFORE, Argonne respectfully submits this SUBMISSION OF CERTIFICATE OF PUBLICATION IN AS 2003-4.

NOTICE OF PETITION BY ARGONNE NATIONAL LABORATORY FOR AN ADJUSTED STANDARD BEFORE THE ILLINOIS POLLUTION CONTROL BOARD

On May 19, 2003, Argonne National Laboratory, located at 9700 S. Cass Avenue, Argonne, Illinois 60439, as represented by the United States Department of Energy and the University of Chicago, filed with the Illinois Pollution Control Board a Petition for an Adjusted Standard, docket number AD-2003-04. By that Petition, Argonne National Laboratory seeks an adjusted standard from 35 Ill. Adm. Code 218.182, Cold Cleaning, effective date June 9, 1997; a regulation of general applicability, which specified, in part, requirements, that after March 15, 2001, no person in the Chicago ozone non-attainment area may operate a cold cleaning degreaser with a solvent vapor pressure which exceeds 1.0 mm Hg (0.019 psi) measured at 20 degrees C (68 degrees F). Peffloner, Argonne National Laboratory, seeks an adjusted standard to exempt it from otherwise applicable requirements of the regulation, including the vapor pressure requirements of Section 218.182(c), as well as the associated equipment requirements of Section 218.182(b), and the recordkeeping requirements of Section 218.182(d), for certain cold cleaning applications involving the preparation of sample materials and associated apparatus used for research and development testing and analysis activities. Argonne National Laboratory proposes the following adjusted standard, in lieu of the Laboratory from those requirements of 35 Ill. Adm. Code 218.182 for the specified cold cleaning activities conducted at the Laboratory: The adjusted standard from 35 Ill. Adm. Code 218.182 applies to Argonne National Laboratory, a research laboratory located near Waterfall Glen Forest Preserves in DuPage County, Illinois. The requirements of this adjusted standard shall apply only to cold cleaning involving the preparation of sample materials and associated apparatus used for research and development testing and analysis activities. These activities are subject to the following requirements: (1) The research and development related cleaning activities include, but are not limited to, washing and rinsing slides; drying glassware; sample preparation; specimen cleaning; gel stain destaining; membrane rinsing; and the cleaning of small parts and equipment associated with the preparation of sample materials for testing and analysis. (2) The requirements of this adjusted standard do not apply where solvents meeting the vapor pressure limits of 35 Ill. Adm. Code 218.182 can be used without compromising the quality of the equipment being used or the validity of research results. Any person may cause a public hearing to be held in the above-described adjusted standard proceeding by filing a hearing request with the Illinois Pollution Control Board within 21 days after the date of the publication of this notice. The hearing request should clearly indicate the docket number for the adjusted standard proceeding, as found in this notice, and must be mailed to the Clerk of the Board, 100 W. Randolph Street, Suite 11-500, Chicago, Illinois 60601. In addition, Argonne National Laboratory understands that a hearing on its Petition for an Adjusted Standard is required because an adjusted standard would become part of the state implementation plan for ozone for the Chicago non-attainment area.

I, Michael H. Dismuke, the authorized agent of the Sun-Times Company do hereby certify that an advertisement, of which the annexed printed slip is a true copy, was published on:

May 24, 2003

to-wit 1 time(s) in all editions of the SUN-TIMES, a newspaper published in the City of Chicago, County of Cook, and the State of Illinois, and of general circulation throughout said county and state.

In Witness Whereof, and by virtue of authority duly vested in me by The Sun-Times Company, I have hereto set my hand this 27 Day of May A.D. 2003.

Michael H. Dismuke

Authorized Agent of the Sun-Times Company

Subscribed and sworn to before me
