**ILLINOIS ENVIRONMENTAL PROTECTION AGENCY  
MEMORANDUM**

**DATE:** October 21, 2013  
**TO:** Bureau of Land File  
**FROM:** Mark Weber, DLPC/FOS – Springfield Region  
**SUBJECT:** LPC# 1498060004 – Pike County  
Fairmount Township/Sohn  
FOS File

On October 10, 2013 Mr. Mark Weber, Division of Land Pollution Control/Field Operations Section (DLPC/DOS) - Springfield Regional Office (SRO), conducted a re-inspection of the Sohn site located on the south side of 372<sup>nd</sup> Avenue in rural Pike County. The initial site inspection was conducted on April 1, 2010 after the Illinois Environmental Protection Agency (IEPA) had received a complaint from the Illinois Department of Natural Resources (IDNR). IDNR employees had been conducting a watershed study of the La Moine River during which time a number of open dump sites within the Springfield Region were discovered, one of which was the Sohn site.

Legally and specifically this property is located in the Southeast Quarter of Section 18 lying south of the public road (372<sup>nd</sup> Avenue), in Township 3 South and Range 4 West of the Fourth Principal Meridian, situated in the County of Pike County, in the State of Illinois. This legal description was derived from a Sheriff's Deed recorded on December 12, 2007 with the Pike County Recorder's Office. The deed identifies Steven C. & Anthony L. Sohn as the property owners. A mailing address for Steven Sohn of 709 Main Street in Quincy, Illinois was provided on the deed. A copy of the deed can be found in the IEPA Bureau of Land file for the Sohn site.

As a result of the April 1, 2010 site inspection an Administrative Citation Warning Notification (ACWN) dated April 15, 2010 was sent to Steven and Anthony Sohn. Violations of the Illinois Environmental Protection Act cited in the ACWN included Sections: 21(a), 21(d)(1), 21(d)(2), 21(e), 21(p)(1), and 55(a)(1). An apparent violation of the Regulation, 35 Illinois Administrative Code 812.101(a) was also cited. To date the SRO has not been provided with a written response, receipts, or any other form of documentation from the Sohn's indicating that the wastes had been properly disposed of per the conditions of the ACWN.

**October 10, 2013 Re-Inspection**

The IEPA inspector arrived at the Sohn site at approximately 1100 hours on October 10, 2013. The temperature was around 65° Fahrenheit. Skies were mostly cloudy and there was a five mile per hour south southeast wind. Site soil conditions were dry. The open dump site is located on the south side of 372<sup>nd</sup> Avenue approximately ¼ mile west of the intersection of Perry Fishhook Road and 372<sup>nd</sup> Avenue southeast of Fishhook, Illinois. The surrounding property usage is primarily agricultural with some residences nearby. The dump site is in a

wooded area of the Sohn property. Please refer to the attached aerial photograph for a depiction of the dump site location.

The open dumped wastes found at the Sohn site during the April 1, 2010 complaint inspection by the IEPA inspector were again observed during the October 10, 2013 re-inspection. In fact it appears that more wastes have been open dumped on-site since the 2010 inspection. However, a "No Dumping" sign has been posted alongside 372<sup>nd</sup> Avenue since the 2010 inspection. It does not appear that any effort was made by the Sohn's to remove any of the wastes.

The large waste pile in which most of open dumped wastes are located is visible from 372<sup>nd</sup> Avenue. Open dumped solid wastes observed during both inspections include dimensional lumber, carpet, furniture, linoleum, plastics, mixed metals, white goods, landscape debris, and glass. Given the proximity of the wastes to the road it appears that this is likely the result of fly dumping. The total volume of open dumped solid wastes located on the Sohn site was estimated at 35 cubic yards. There are approximately a half dozen used off rim tires located on-site as well. The IEPA inspector did not observe any evidence of open burning at the site during either inspection. Please refer to the attached photographs for a depiction of site conditions as they existed during the October 10, 2013 re-inspection.

Photograph #1 depicts a no dumping sign added at the Sohn site since the initial complaint inspection.

Photograph #2 shows furniture, white goods, mixed metals, plastics, and carpet that have been open dumped on-site.

Photograph #3 provides a view of open dumped used tires, plastics, and mixed metals.

Photograph #4 was taken of numerous glass and plastic bottles that were open dumped on-site.

Photograph #5 is of a water heater open dumped on-site.

Photograph #6 provides a close-up of some of the used tires, carpet, linoleum flooring, mixed metals, and dimensional lumber open dumped on-site.

Photograph #7 shows some of the landscape debris open dumped on-site.

The October 10, 2013 re-inspection of the Sohn site was conducted in order to determine if violations cited in the April 15, 2010 ACWN persisted. The IEPA inspector observed and documented that violations of the Illinois Environmental Protection Act cited in the ACWN persist. Violations of the Act that were observed during the re-inspection include Sections: 21(a), 21(d)(1), 21(d)(2), 21(e), 21(p)(1), and 55(a)(1). An apparent violation of the Regulations, 35 Illinois Administrative Code (IAC) Section 812.101(a) persists as well. Refer to the attached Open Dump Checklist for additional information.

The IEPA inspector left the Sohn site at approximately 1120 hours and proceeded to the Pike County Courthouse. After visiting the Pike County Assessor's Office it was determined that the Sohn's still own the property.
