Complaint No. C13-085-CH

**Narrative Inspection Report**

I conducted an open dump complaint inspection at the above referenced facility on April 16, 2014. The inspection lasted from approximately 11:00-11:35 A.M. This inspection was conducted to determine the regulatory status and evaluate compliance with the Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). Twelve (12) photos and no samples were taken. The weather was partly cloudy, wet in some low-laying areas, and temperatures in the 50s.

**Initial Inspection**

Champaign FOS initially inspected this site on July 27, 2010 in response to a complaint the owner, Danny Stifle, had open burned two house trailers and their contents. The complaint was valid. Inspector Jennifer O'Hearn found the remnants of the burned trailers and burned tires at the site during her inspection. An ACWN dated September 2, 2010 was sent to the owner. A reinspection by Mike Mullins on July 3, 2012 found the site had been remediated.

On April 15, 2014 IEPA received a complaint via the Office of Emergency Response alleging Stifle was bringing crude oil tanks to the property, burning off the oil and sludge inside causing black smoke, and scrapping the tanks.

I inspected the site the day after the complaint was received. The site is a square shaped clearing with several steel crude oil tanks stored on their sides. The property has several areas where crude oil had been either spilled or dumped. In addition, I saw several piles where tires had been recently burned, as well as a large pile of household waste dumped on the property.

When I arrived I parked along the side of the road near the southeast corner of the property. Right next to the road I saw a pile of burned tires with the tire bead remaining (Photos 8-10). From the tire bead present, it looked as if 7-10 tires had been burned at this location.

In the northeast corner of the property, I observed what looked like crude oil stain, along with another pile of 4-5 tires that had been burned (photos 2-3).

In the center of the property was another, larger oil stain that I estimated to be 14' x 8' (photos 1 & 6).

In the northeast corner of the clearing, I found a large pile of household refuse (photos 5, 11, & 12). Additional household waste was scattered around the larger pile approximately 10-12' south from the pile. The household waste included trash bags, cans, glass, plastic, cardboard, food containers, a piece of luggage, garden hose, and a bathroom sink. I looked briefly through some of the trash looking for any with addresses, but could not find anything identifying the source of the household waste.

I checked with the Crawford County Courthouse and found the owner of record is still Danny Stifle, who lives at 899 E 1500<sup>th</sup> Ave, Robinson, IL

### **Regulated Status**

The site is regulated as an open dump. I could not tell if any crude oil had been burned, but the black smoke observed by the complainant was likely from burning tires. The owner has a previous warning for open dumping and open burning.

### **Apparent violations observed during this inspection:**

PROBLEM DESCRIPTION Caller was relaying a complaint from  
Alan + Jill Jones, 12595 North 675th St (Jericho Rd), Robinson  
(618) 554-6537. Apparently the suspected source is  
a family group which buys old oil tanks, dumps the  
material out on the ground North of the Joneses and  
burns the oil off. This causes large amounts of black  
smoke which makes it hard to breathe. The Stifles  
then cut up the tanks for scrap.

AGENCY INVESTIGATION NOTES Mr. Jones states IEPA has  
investigated before and also the Stifles are a  
rough bunch.
