NARRATIVE INSPECTION REPORT

A follow-up complaint investigation was conducted at the Cain property on January 30, 2015 by this author. Evidence of open dumping, open burning, litter, and the deposition of demolition debris were observed. It is recommended an Administrative Citation (AC) be sent to the property owner, Gerald Cain, and the apparent operator, Eddie Jones.

Several structures were present that are considered waste. The structures in photos 001, 003, 009, and 010 (left of picture) completely lacked parts of the walls which exposed the interiors. The protective underside of the mobile home in photo 005 had deteriorated to the point it was hanging down toward the ground. Photos 008 and 025 show exposed insulation on mobile homes. The mobile home on the right side of photo 010 had started to collapse.

The structure in photos 021 and 022, also showed disrepair such as a small area of exposed insulation and a missing window. However, compared to other structures, these repairs appeared to be minimal so this building will not be considered waste at this time. Appropriate repairs need to be made.

An apparent open burn pile was observed as seen in photo 006. It was apparent open burning had occurred due to the concentration of charred waste and ash toward the center of the pile and decreasing as the outer perimeter was approached.

A variety of waste was strewn throughout the site. It included, but was not limited to, demolition wood, a variety of metal, about 85 tires, a variety of plastics, concrete, insulation, broken glass, and general refuse. Larger concentrations of this can be seen in photos 007, 011 – 019, 024, and 026. A tire (photo 013) and part of a broom (007) were partially buried. The waste at the site did not appear to be in use, did not appear to be kept in a way to protect it for future use, and much of it did not appear to be useable in current conditions.

During the inspection, apparent violations of the Illinois Environmental Protection Act (Act) and of the regulations, Title 35, Illinois Administrative Code, Subtitle G (35 I. A. C.) were observed.

Those apparent violations of the Act are Sections 9(a), 9(c), 21(a), 21(d)(1), 21(d)(2), 21(e), 21(p)(1), 21(p)(3), 21(p)(7), and 55(a)(1). The apparent violation of the regulations is Section 812.101(a). Additional information is provided in the Open Dump Inspection Checklist, attached.

The total amount of open dumped waste on-site is estimated at 1510 cubic yards.
