

ILLINOIS POLLUTION CONTROL BOARD
July 24, 1975

IN THE MATTER OF:)
)
AIR POLLUTION CONTROL REGULATIONS--) R71-23
EMISSION STANDARDS)

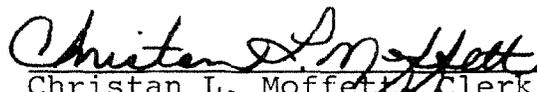

ORDER OF THE BOARD (by Mr. Henss):

On July 16, 1975 the United States Steel Corporation filed "Motion for Stay" requesting the Board to stay the effectiveness of certain rules and regulations which had been adopted by the Pollution Control Board over three years earlier on April 13, 1972. United States Steel Corporation is seeking judicial review of the Regulations and its Petition for Review is presently pending in the Appellate Court of Illinois. Presumably, Petitioner's Motion for Stay would be for the duration of judicial review and could encompass an indefinite extended period of time.

We are not inclined to grant such a delay in pollution control for the State of Illinois. The request for delay is too broad and indefinite for approval of this Board. A similar request by United States Steel was denied by the Board on July 26, 1973. It is entirely possible that particular situations might arise while a matter is pending on review which would make it unreasonable for a prosecution to proceed. We believe, however, that any such situation will have to be clearly specified and that the stay will, of necessity, be limited in scope. Only vague conclusions and generalities are offered in support of the current motion.

It is Ordered that the Motion for Stay be denied.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted the 24th day of July, 1975 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
