Opinion and Order of the Board on Motion for Reconsideration (by Mr. Currie):

Mr. Monyek's request for a variance to allow connection of a new home to sewers serving the Clavey Road sewage treatment plant in Highland Park was denied in an earlier Board order. Mr. Monyek asks that we reconsider.

In North Shore Sanitary District v. EPA, # 71-343 (March 2, 1972), we recently authorized the District to allow up to 5000 new permits for connections to its Clavey Road and Waukegan plants, in recognition of improvements made and to be made at these plants to provide better treatment. This decision renders the present request moot. Mr. Monyek is free to apply to the District for a permit. Unless and until he has done so and the permit been for some unanticipated reason denied, there is no need for a variance from us.

The motion is hereby dismissed as moot.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order on Motion for Reconsideration this 14th day of March, 1972, by a vote of 4-0.
