ENVIRONMENTAL PROTECTION AGENCY	·)			

Opinion of the Board (by Mr. Currie):

Certain-Teed has an approved program for installing air pollution control equipment on its asphalt saturators in Chicago Heights. In light of our decision in EPA v. Commonwealth Edison Co., # 70-4 (Feb. 17, 1971), the company filed a petition seeking that we reaffirm its permission to emit in excess of the regulations during completion of its program, asking that the date for ultimate compliance be accelerated from December 1972 to December 1971.

On December 5, 1971, the Agency received a letter construed by the Agency as an amended Petition for a variance requesting that a variance be granted until March 31, 1972.

An Agency investigation on November 17, 1971 disclosed considerable progress with regard to installation of after-burners on its asphalt saturator machines. The company has significantly accelerated its program, and we grant the variance on conditions suggested by the Agency.

ORDER

Certain-Teed Products Corp. is hereby granted a variance to permit particulate emissions in excess of those permitted by regulations from equipment covered by its control program, until March 31, 1972 subject to the following conditions:

- 1. That the Petitioner shall post a performance bond in the amount of \$30,000 to ensure completion of the proposed program on or before March 31, 1972.
- 2. That the Petitioner shall not operate above the current production level as described in the petition until completion of the proposed control project.

- 3. That Petitioner shall promptly submit a permit application for the oil-water separator to the Water Pollution Control Division of the Agency.
- 4. That the Petitioner shall submit bi-weekly reports detailing its progress or lack of progress on the proposed control equipment and the production level of operation of their facilities until the control program is complete.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion this $\underline{24th}$ day of January, 1972 by vote of $\underline{3-0}$.

Christan Moffeet
