June 20, 2013

STATE OF ILLINOIS
Pollution Control Board

To Whom it may concern:

Still not sure what you want ,we can't afford an attorney to figure it out
Susan Konzelmann said she thought it was because what was the reason
it was there in the first place. Well our dumpster was full and we had 2
weeks till a pick up time .We made sure that the barrels and wood was
put on the concrete driveway not on the ground ,the tires were put
where they were because we had a big snow and didn't get the path
shoveled to the shed ,so we could store to put on our vehicles when we
had the money to put on and dispose of ones we took off. Well a large
ice storm came twice and a large snow so everything was frozen to the
ground and each other. As soon as it thawed we got it all cleaned up. I
don't know what else we can say there was no pollution done here that I
seen nothing touched the ground that would hurt the environment, we
did no burning of any kind of wood ,or garbage .Even though in our area
of whiteside county they tell us there isn't a burn ordinance on wood
(yard waste) .Sorry this happened .

Thank-You
