Narrative Inspection Report

Site #: 1650205113

Date of Inspection: 7-17-13

County: Saline

Inspector: P. Pierce-Savoie

Site Name: Raben Tire Mining & Industrial Services

General Remarks

This inspection was made as a follow-up to the Used Tire Compliance Evaluation Inspection conducted on October 12, 2012 by this office. The inspection began at approximately 11:25am and concluded around 11:40am. It was ~80°F and mostly sunny at the time of the inspection, and the ground conditions were normal. Eight (8) pictures were taken of the facility.

I spoke with Don Lipinske, the Book Keeper at the facility. Manager Steve Wilson was unavailable at the time of my inspection. This facility deals solely in OTR (Off The Road) tires, and all the work done here is contractual. This means that no IL Tire User Fee needs to be collected, nor ST-8 forms submitted, but this also means that this facility cannot be exempted from the full Tire Storage Site regulations. This facility is a registered tire storage site, and has paid the fee for this year. Liberty Tire (T-7696) handles hauls the waste tires generated by this facility for disposal. After speaking with Mr. Lipinske I walked the site.

Approximately 200 used tires were observed on-site. Most of these were solid-core tires. The barrel-stacked tires near the building were covered with visqueen-type plastic and shipping pallets to prevent them from accumulating water. At least three (3) tires were observed to be holding water, and at least one of these tires was observed to be holding many active mosquito larva. It appears that the disposal trailer is also open topped, and cannot prevent tires stored in it from accumulating water. After observing the tires holding water and mosquito larva I informed Mr. Lipinske of the issue. He had the tires drained and stored in a building at that time.

Inspection Findings:

This site is failing to prevent tires from accumulating water and mosquito larva.

Summary of Violations:

The following conditions were observed, that constitute violations:

- Used tires being allowed to accumulate water.
- Failure to abide by all laws, rules, regulations, and requirements for tire storage sites.
