SUPPLEMENTAL OPINION AND ORDER OF THE BOARD (by Mr. Goodman):

This matter comes before the Pollution Control Board (Board) upon the Environmental Protection Agency's (Agency) January 8, 1976, Amended Motion For Reconsideration. It is the Board's Opinion that in determining which emission standard would apply to a given "incineration" source, the primary purpose of that source is determinative. The determination of what is the primary purpose of the source must be made on a case by case basis.

In the instant cause, the incineration process had the primary purpose of reclaiming wire. Therefore, the process emission source standard was applicable. The December 4, 1975, Opinion is amended at page two, line seven, by the addition of the following: "This finding is limited to the facts in the instant cause."

In consideration of the foregoing, it is the Order of the Board that the Agency's Motion for Reconsideration be and is, hereby, granted and the Opinion is amended as set forth herein.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Opinion and Order were adopted on the day of , 1976 by a vote of 4.0

Christan L. Moffett; Merk
Illinois Pollution Control Board
