Sean McCarthy, Director  
Department of Commerce and Economic Opportunity  
100 W. Randolph St., Suite 3-400  
Chicago, Illinois 60601

Re: Request for Economic Impact Study for Amendments to 35 Ill. Adm. Code Subtitle D: Mine Related Water Pollution, Board Docket R18-24

Dear Director McCarthy:

I write to request that the Department of Economic Opportunity conduct an economic impact study of the rulemaking proposal cited above. On July 25, 2018, the Illinois Pollution Control Board adopted a proposal for public comment. The Board proposes amendments to remove redundant or unnecessary language, replace outdated language, update statutory references, and reorganize provisions to clarify them.

For the reasons below, we would appreciate your response to this request no later than November 30, 2018.

Section 27(b) of the Environmental Protection Act requires the Board to

- (1) request that the Department of Commerce and Economic Opportunity conduct a study of the economic impact of the proposed rules. The Department may within 30 to 45 days of such request produce a study of the economic impact of the proposed rules. At a minimum, the economic impact study shall address
  - (A) economic, environmental, and public health benefits that may be achieved through compliance with the proposed rules,
  - (B) the effects of the proposed rules on employment levels, commercial productivity, the economic growth of small businesses with 100 or less employees, and the State's overall economy, and
  - (C) the cost per unit of pollution reduced and the variability in cost based on the size of the facility and

- (C) the cost per unit of pollution reduced and the variability in cost based on the size of the facility and the percentage of company revenues expected to be used to implement the proposed rules; and
- (2) conduct at least one public hearing on the economic impact of those new rules. At least 20 days before the hearing, the Board shall notify the public of the hearing and make the economic impact study, or the Department of Commerce and Economic Opportunity's explanation for not producing an economic impact study, available to the public. Such public hearing may be held simultaneously or as a part of any Board hearing considering such new rules. 415 ILCS 5/27(b) (2016).

Although there is no decision deadline in this rulemaking, the Board intends to proceed by scheduling hearings. In the interest of administrative economy, the Board would like to combine the hearing required by Section 27(b) with a hearing on the substantive merits of IEPA's proposal. Under these circumstances, the Board respectfully asks that you determine whether the Department of Commerce and Economic Opportunity will conduct an economic impact study on the proposal and respond no later than November 30, 2018. If I or my staff can provide any additional information, please let me know.

Thank you in advance for your prompt response.

Sincerely,

The seal of the Pollution Control Board of Illinois is circular. It features an eagle with wings spread, perched on a globe. The globe has the years 1868 and 1918 on it. Below the eagle, it says "AUG. 26<sup>th</sup> 1818". The words "ILLINOIS" and "POLLUTION CONTROL BOARD" are also visible around the perimeter of the seal.

Katie Papadimitriu, Chairman  
Pollution Control Board

cc: Don A. Brown, Clerk of the Board
