

Electronic Filing: Received, Clerk's Office 1/17/2019 P.C. #3027

From: [Winston Lee \(wlee1@iwu.edu\)](mailto:wlee1@iwu.edu) Sent You a Personal Message
To: [Brown, Don](#)
Subject: [External] Dynegy-Vistra Proposed rule change, case number R2018-20.
Date: Thursday, January 17, 2019 4:25:07 PM

Dear IL Pollution Control Board Assistant Clerk,

We must protect not just the environment of the State of Illinois, but we must protect the health of the people of Illinois. Dynegy-Vistra's proposal will increase pollution in the state and, in turn, threaten the state's environment and public health. Please do not support Dynegy-Vistra's proposal.

Dear Clerk Brown:

Please accept my comment on the Dynegy-Vistra Proposed rule change, case number R2018-20.

I am writing in solidarity with communities members who are rightly concerned about their air quality worsening under the current proposal. While the PCB made changes to Dynegy-Vistra's request, those changes do not go far enough and ultimately still allow Dynegy-Vistra to increase its dangerous coal pollution by 40%. These changes to state air protections are unnecessary and the current MPS rate-based standard should be kept in place.

No Illinois community, like Peoria, should be a sacrifice zone with uncontrolled plants. Instead of weakening air regulations, Illinois should be leading in environmental health protections for our residents by strengthening existing rules like the MPS to require polluting coal plants to install modern pollution controls.

Thank you for this opportunity to comment,

Sincerely,

Winston Lee
