PCB 73-394 )

ENVIRONMENTAL PROTECTION AGENCY )

INTERIM ORDER OF THE BOARD (by Mr. Dumelle)

Petition filed September 19, 1973 is inadequate under the Board's Procedural Rules. Petitioner does not state a Rule from which variance is requested. Furthermore, the strength of the effluent is not given nor are any downstream water quality parameters listed to substantiate the allegation that the present sewage treatment facility "has been in no way harmful to public interest."

The present treatment plant is not described and no reasons are given as to why chemical treatment and/or tube settlers or other system improvement techniques cannot be used now to meet the standards.

A hearing will be held. Petitioner is directed to file an amended petition remedying the deficiencies discussed above within 35 days from date of this order. Failure to amend in a timely fashion may make the petition liable to dismissal for inadequacy.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 20<sup>th</sup> day of September, 1973 by a vote of 5-0
