ORDER OF THE BOARD (by C.A. Manning):

Pursuant to Section 35(b) of the Environmental Protection Act (Act) (415 ILCS 5/35(b)), the Village of Tonica (petitioner) has requested that the Illinois Environmental Protection Agency (Agency) recommend that the Board grant a provisional variance from Section 35(b) of the Act (415 ILCS 5/35(b)), to the petitioner. Such request for a provisional variance and the notification of recommendation were filed with the Board by the Agency on June 3, 1997. Pursuant to Section 35(b) of the Act, the Board must issue the variance within two (2) days of this filing.

Pursuant to Section 35(b) of Act (415 ILCS 5/35(b)), the Agency, by and through its director, Mary A. Gade, seeks a provisional variance to allow petitioner to continue to operate its wastewater treatment facility while rehabilitation work is conducted on petitioner's sand filter units.

Specifically, the Agency recommends that we grant petitioner a 45-day provisional variance for its LaSalle County facility from the total suspended solids, biochemical oxygen demand and ammonia nitrogen effluent discharge requirements, as set forth in 35 Ill. Adm. Code 304.120(c), 304.141(a) and 304.212 and imposed by National Pollutant Discharge Elimination System (NPDES) Permit No. IL0023639. This variance period is recommended to commence during May 1997 when the sand filter units are removed from service and to continue until the work on the units is completed, but not longer than 45 days.

The Agency recommends that the Board grant the requested provisional variance with specified conditions and agrees that the repairs are necessary. The Agency anticipates that the requested provisional variance would have minimal environmental impact on the receiving stream and is unaware of any public water supplies that the requested provisional variance would adversely impact. The Agency maintains that a grant of a provisional variance would violate no federal laws. The Agency believes that a denial of the requested provisional variance would create an arbitrary or unreasonable hardship on the petitioner.

Provisional variances are by their very nature temporary. The responsibilities of the Agency and the Board in these short-term provisional variances are different from the responsibilities in standard variances. (See 415 ILCS 5/35(b) & 36(c).) In a provisional variance, it is the responsibility of the Agency to make the technical determinations and finding of arbitrary or unreasonable hardship. The Board's responsibility is to adopt a formal order, to assure the formal maintenance of the record, to assure the enforceability of the variance, and to provide notification of the action by a press release.

Having received the Agency recommendation that a denial of the requested relief would impose an arbitrary or unreasonable hardship, the Board hereby grants the petitioner a provisional variance from 35 Ill. Adm. Code 304.120(c), 304.141(a) and 304.212 and imposed by NPDES Permit No. IL0023639, subject to the following conditions:

1. The term of this provisional variance shall commence during May 1997, when the sand filter units are removed from service and to continue until the work on the units is completed, but not longer than 45 days, whichever occurs first.
2. Petitioner shall operate its wastewater treatment facility during the term of this provisional variance in a manner that assures the best effluent practicable. Additionally, petitioner shall meet the following effluent limits:

	<u>CBOD</u>	<u>Suspended Solids</u>	<u>Ammonia Nitrogen</u>
Monthly Average	40 mg/l	45 mg/l	20 mg/l

Petitioner shall continue to meet the pH limits of its NPDES Permit No. IL0023639;

3. The petitioner shall notify Dennis Corner at the Agency's Rockford regional office by telephone, at 815/987-7755, when the sand filter units are removed from service and again when the units are returned to service. Petitioner shall confirm this notice in writing within five (5) days, addressed as follows:

Illinois Environmental Protection Agency
ATTN: Mark T. Books
Bureau of Water, Compliance Assurance Section
2200 Churchill Road
P.O. Box 19276
Springfield, Illinois 62794-9276

4. The petitioner shall perform the necessary repair work on the sand filter units as expeditiously as possible to minimize the time period that the units are out of service.

The petitioner shall execute a copy of a certificate of acceptance of this provisional variance and forward that copy to the Agency addressed as is the written notice required in the above condition; the petitioner shall forward that copy within ten (10) days of the date of this order of the Board, and the certificate of acceptance shall take the following form:

CERTIFICATION

I (We), _____,
hereby accept and agree to be bound by all terms and
conditions of the order of the Pollution Control
Board in PCB 97-220, June 5, 1997.

Petitioner

Authorized Agent

Title

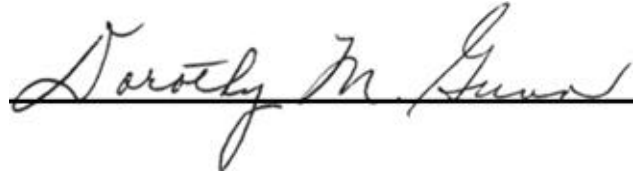

Date

IT IS SO ORDERED.

Board Member K.M. Hennessey abstained.

Section 41 of the Environmental Protection Act (415 ILCS 5/41 (1994)) provides for the appeal of final Board orders to the Illinois Appellate Court within 35 days of the date of service of this order. The Rules of the Supreme Court of Illinois establish filing requirements. (See also 35 Ill. Adm. Code 101.246 "Motions for Reconsideration.")

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 5th day of June 1997, by a vote of 6-0.

A handwritten signature in cursive script, reading "Dorothy M. Gunn", written over a solid horizontal line.
