Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

PC#3023

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Glenn Maximo-Gomez
857 N Rockwell St
Chicago, IL 60622-4553

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Products of my thesis include solar-hydrogen energy innovations that will provide clean, inexpensive sustainable energy that can make fossil and nuclear fuels obsolete. The emissions are oxygen, so it will make the air and environment much cleaner and is expected to stop global warming. Unfortunately, I've had a terrible time with start-up funding for the business I've planned but I am determined, knowing that these products are the solutions the world desperately needs.

Please stay strong against fracking and pollution in energy production, knowing that far greater solutions are coming. Also, PLEASE veto the concealed carry of weapons law. In Chicagoland, it's far too dangerous and no one wants that law passed but criminals.

Sincerely,

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Richard Stuckey

Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

I have worked hard to get dirty coal out of our state. I testified at the Mercury Hearings, and was in City Council Chambers with the Sierra Club when they worked to close Fisk and Carlton. To allow new dirty coal to the state that has the country with the highest asthma mortality rate in the country is not only irresponsible, it is unconscionable.
