vs.)	
)	
ENVIRONMENTAL PROTECTION AGENCY,)	
)	
Respondent.)	

ORDER OF THE BOARD (by Mr. Seaman):

On February 28, 1974, this Board granted Petitioner a variance from the provisions of Rule 205(f) of the Air Pollution Control Regulations until April 1, 1974. By the instant Motion To Amend Order, filed March 18, 1974, Petitioner seeks extension of said variance until May 1, 1974.

Petitioner alleges that one-month extension is necessary because its supplier made an error in the design of the control panel for an incinerator, the operation of which is part of Petitioner's control plan. Due to this error, delivery of the control panel will be delayed until mid-April.

Petitioner states that virtually all other materials and equipment necessary for the completion of its control program has been received and all necessary construction and installation work that can be completed without the control panel has been or will be completed prior to April 1, 1974. Petitioner's allegations are supported by the sworn affidavit of David A. Leligdon, Assistant Chief Engineer for Respondent.

We note that the Agency's Recommendation regarding Petitioner's initial request for variance indicated that Petitioner unknowingly may have requested too little time.

We hereby grant the extension of variance, until May 1, 1974, from the provisions of Rule 205(f) of the Air Pollution Control Regulations, retaining the condition in our initial Order that, upon completion of the control system, Petitioner shall notify:

Illinois Environmental Protection Agency
Division of Air Pollution Control
2200 Churchill Road
Springfield, Illinois 62706

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Order was adopted on this 21st day of March, 1974 by a vote of 5-0.

Christan L. Moffett
