

ILLINOIS POLLUTION CONTROL BOARD
April 6, 1989

IN THE MATTER OF:)
)
LIMITS TO VOLATILITY OF) R88-30
GASOLINE)

ORDER OF THE BOARD (by J.D. Dumelle):

This matter comes before the Board upon an April 4, 1989 filing by the Chicago Lung Association (Association). The Association submitted a proposed rule to set limits on the volatility of gasoline, along with a statement of reasons to support its proposal and a motion to waive the signature requirement of 35 Ill. Adm. Code 102.121(a). The Association's motion is hereby granted.

However, before the Board can accept the proposal and proceed to hearing, the recently added requirements of Section 27 of the Act, as amended, must be satisfied. Specifically, a recommendation of whether an economic study is advisable must be included as part of the proposal, and a copy of the proposal must be filed with the Illinois Environmental Protection Agency (Agency) and the Department of Energy and Natural Resources (Department). The Board also notes that Section 27(a) requires:

...the person filing a proposal shall describe, to the extent reasonably practicable, the universe of affected sources and facilities and the economic impact of the proposed rule.

Until these requirements are satisfied, the Board cannot proceed further.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 6th day of April, 1989 by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
