Craig,

Please filter the following water samples and analyze for the metals indicated. We will need the results by **Thursday, May 7th by 10:00 am**.

1. MW-1 (Lab ID 15040252): Manganese
2. MW-2 (Lab ID 15040252): Iron and Manganese
3. MW-17 (Lab ID 15040252): Manganese.
4. MW-100 (Lab ID 15040025): Aluminum, Antimony, Iron, Lead, Manganese, and Vanadium
5. MW-102 (Lab ID 15040025): Aluminum, Iron, Lead, Manganese, and Vanadium
6. MW-104 (Lab ID 15040025): Manganese.
7. MW-105 (Lab ID 15040025): Aluminum, Iron, Lead, Manganese, and Vanadium
8. MW-106 (Lab ID 15040112): Manganese.
9. MW-107 (Lab ID 15040112): Aluminum, Iron, Lead, Manganese, Vanadium.
10. MW-108 (Lab ID 15040112): Manganese.
11. MW-109 (Lab ID 15040112): Aluminum, Iron, Lead, Manganese, Nickel, Vanadium.
12. MW-111 (Lab ID 15040112): Aluminum, Iron, Lead, Manganese, Vanadium.
13. MW-112 (Lab ID 15040112): Manganese.
14. MW-114(Lab ID 15040112): Iron, Lead, Manganese.
15. MW-115 (Lab ID 15040112): Aluminum, Arsenic, Chromium, Iron, Lead, Manganese, Nickel, Thallium, and Vanadium.
16. MW-116 (Lab ID 15040112): Manganese.
17. MW-117 (Lab ID 15040112): Aluminum, Iron, Lead, Manganese, Vanadium.
18. MW-118 (Lab ID 15040158): Aluminum, Iron, Lead, and Manganese.
19. MW-119 (Lab ID 15040158): Aluminum, Iron, Lead, Manganese, Vanadium.
20. MW-120 (Lab ID 15040158): Aluminum, Iron, Lead, and Manganese.
21. MW-121 (Lab ID 15040158): Aluminum, Chromium, Iron, Lead, Manganese, Nickel, Vanadium.

If you should have any questions concerning the aforementioned, please feel free to contact me at 630-717-4848.

Regards,

Carl

Analytical Report for STAT Work Order: 15050237 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 14 samples for the referenced project on 5/8/2015 7:25:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone.This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050278 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 16 samples for the referenced project on 5/11/2015 3:20:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone.This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050417 Revision 0

RE: 3892-300-01-02, 300 West - Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 19 samples for the referenced project on 5/13/2015 5:53:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone.This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Cyanide, Total	**SW9012A**			Prep Date: **5/14/2015**		Analyst: **YZ**
Cyanide	ND	0.28		mg/Kg-dry	1	5/19/2015
pH (25 °C)	**SW9045C**			Prep Date: **5/14/2015**		Analyst: **GH**
pH	7.7			pH Units	1	5/14/2015
Percent Moisture	**D2974**			Prep Date: **5/14/2015**		Analyst: **GH**
Percent Moisture	11.5	0.2	*	wt%	1	5/15/2015

Qualifiers:

ND - Not Detected at the Reporting Limit
J - Analyte detected below quanititation limits
B - Analyte detected in the associated Method Blank
HT - Sample received past holding time
* - Non-accredited parameter
RL - Reporting / Quantitation Limit for the analysis
S - Spike Recovery outside accepted recovery limits
R - RPD outside accepted recovery limits
E - Value above quantitation range
H - Holding time exceeded

Analytical Report for STAT Work Order: 15050335 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 8 samples for the referenced project on 5/12/2015 1:06:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone. This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050456 Revision 0

RE: 3892-300-03-02, 300 West - Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 6 samples for the referenced project on 5/14/2015 6:45:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Craig Chawla
Project Manager

Analytical Report for STAT Work Order: 15050459 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 14 samples for the referenced project on 5/14/2015 6:45:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone.This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

CASE NARRATIVE

Sample GP-360 (6-8') (15050459-002) had recovery of VOC surrogate Dibromofluoromethane outside of control limits (71% recovery, QC Limits 74-150%). Recovery of all other surrogates were within control limits.

Sample GP-361 (6-8') (15050459-004) had recovery of VOC surrogate Dibromofluoromethane outside of control limits (67% recovery, QC Limits 74-150%). Recovery of all other surrogates were within control limits.

Sample GP-362 (1-3') (15050459-005) had recovery of VOC surrogate 4-Bromofluorobenzene outside of control limits (115% recovery, QC Limits 44-114%). Recovery of all other surrogates were within control limits.

Sample GP-362 (6-8') (15050459-006) had recovery of VOC surrogate 4-Bromofluorobenzene outside of control limits (114.2% recovery, QC Limits 44-114%). Recovery of all other surrogates were within control limits.

Analytical Report for STAT Work Order: 15050534 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 4 samples for the referenced project on 5/15/2015 5:20:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone. This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050551 Revision 0

RE: 3892-300-03-02, 300 West - Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 18 samples for the referenced project on 5/15/2015 6:11:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Frank Capoccia
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone. This report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall become property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050619 Revision 0

RE: 3892-300-03-02, 300 West Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 4 samples for the referenced project on 5/19/2015 3:20:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Craig Chawla
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone.Tl report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall beco property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Analytical Report for STAT Work Order: 15050810 Revision 0

RE: 3892-300-03-02, 300 West - Marengo, Marengo, IL

Dear Carl Dawes:

STAT Analysis received 16 samples for the referenced project on 5/26/2015 5:45:00 PM. The analytical results are presented in the following report.

All analyses were performed in accordance with the requirements of 35 IAC Part 186 / NELAC standards. Analyses were performed in accordance with methods as referenced on the analytical report. Those analytical results expressed on a dry weight basis are also noted on the analytical report.

All analyses were performed within established holding time criteria, and all Quality Control criteria met EPA or laboratory specifications except when noted in the Case Narrative or Analytical Report. If required, an estimate of uncertainty for the analyses can be provided. A listing of accredited methods/parameters can also be provided.

Thank you for the opportunity to serve you and I look forward to working with you in the future. If you have any questions regarding the enclosed materials, please contact me at (312) 733-0551.

Sincerely,

Craig Chawla
Project Manager

The information contained in this report and any attachments is confidential information intended only for the use of the individual or entities named above. The results of this report relate only to the samples tested. If you have received this report in error, please notify us immediately by phone. Tl report shall not be reproduced, except in its entirety, unless written approval has been obtained from the laboratory. This analytical report shall beco property of the Customer upon payment in full. Otherwise, STAT will be under no obligation to support, defend or discuss the analytical report.

Trichloroethene	ND	0.0045		mg/Kg-dry	1	5/30/2015
Vinyl chloride	ND	0.0045		mg/Kg-dry	1	5/30/2015
Xylenes, Total	ND	0.014		mg/Kg-dry	1	5/30/2015

Qualifiers:
ND - Not Detected at the Reporting Limit
J - Analyte detected below quantitation limits
B - Analyte detected in the associated Method Blank
HT - Sample received past holding time
* - Non-accredited parameter
RL - Reporting / Quantitation Limit for the analysis
S - Spike Recovery outside accepted recovery limits
R - RPD outside accepted recovery limits
E - Value above quantitation range
H - Holding time exceeded
