

ILLINOIS POLLUTION CONTROL BOARD

September 6, 1973

M & S WOOD & PAPER CORP.,)	
)	
Petitioner,)	
)	
vs.)	PCB 73-368
)	
ENVIRONMENTAL PROTECTION AGENCY,)	
)	
Respondent.)	

ORDER OF THE BOARD (by Mr. Henss)

Petitioner requests extension of a variance which was granted in PCB 72-236. The variance granted at that time was "an experiment to determine the adequacy of the air curtain destructor as a substitute for more expensive incinerators in the burning of clean wood that does not qualify as landscape waste". The current Petition for Extension of Variance contains very little information and must be supplemented with additional data for our understanding of the benefits of this experiment. Petitioner is ordered to file a supplement or amendment to the petition stating the quantity and type of materials which have been and are to be burned and an estimate of the quantity and type of contaminants discharged. We should also be informed of the economic necessity for disposing of the material by burning in an air curtain destructor rather than by other means of disposal.

IT IS SO ORDERED.

Mr. Odell abstains.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted this 6th day of September, 1973 by a vote of 3 to 0.

Christan L. Moffett
