No. 512 ♦ A Publication of the Illinois Pollution Control Board ♦ January/February, 1997

STAFF UPDATE

Sandy Wiley Celebrates 25 Years on Board Staff

On January 23, 1997, the Illinois Pollution Control Board members and staff were joined by their past counterparts in congratulating Sandy Wiley on reaching 25 years of service to the Board.

Over the last twenty-five years, Sandy has served as Fiscal Officer, Personnel Officer, Rules Coordinator, Advisor to the Chairman, Administrative Manager, and, in her current role, as Executive Coordinator. Sandy is currently responsible for assisting Chairman Manning in development and implementation of the Board's external policy and performance goals, coordinating the Board's rulemaking function, and managing special project assignments. Her careful diligence in her job, and her constant patience and understanding for all those who have served on or worked with the Board have endeared her to all, and led to the Board adopting a resolution in her honor at their January 23, 1997 meeting.

Chairman Claire Manning, Sandy Wiley, and former Chairman Jacob Dumelle celebrating Ms. Wiley's 25th year with the Board

For Your Information

The Illinois Environmental Protection Agency will be holding a public hearing on their proposed rules for the Alternative Fuels Program on Monday, March 10, 1997 at 10:30 a.m. (file #2-97). The hearing will be held in Room 8-031, James R. Thompson Center, 100 W. Randolph Street, Chicago, Illinois.

To receive more information on the proposed rules, contact Rachel Doctors at (217) 784-3333. For information on hearing procedures contact IEPA hearing officer John Williams at (217) 782-5544.

RULEMAKING UPDATE

Triennial Water Quality Review Amendments Proposed For Second Notice, R94-1(B)

On December 19, 1996, the Board adopted amendments to the Illinois water quality regulations on ammonia nitrogen. The amendments are based on a mandatory triennial review of the Illinois stream water quality regulations conducted by the Illinois EPA (Agency), as required under the federal Clean Water Act (33 U.S.C. §§ 1251 et seq.). The larger Agency proposal amends Parts 302 and 304 of the Water Pollution Control regulations to revise the general water quality standards for ammonia nitrogen, mercury, and lead; secondary contact and indigenous aquatic life standards; and other regulations. The segment of the proceeding involved in (Cont'd on p.2)

The Board and staff hope that you will join them in thanking Ms. Wiley for her 25 years of outstanding service. (Cont'd on p. 2)

STAFF UPDATE

(Cont'd from p.1)

Board Welcomes Three New Employees

The Board welcomes three new employees to staff: Amy C. Muran, Richard R. McGill, Jr., and Ira B. Lauter.

Amy Muran will be working in Chicago with the Board's Legal Unit. She earned her Juris Doctorate from Chicago-Kent College of Law and her Bachelor of Arts in Russian Language & Literature and Political Science from the University of Michigan. Ms. Muran also studied abroad at the Herzen Pedagogical Institute in St. Petersburg, Russia.

Since January of 1995, Ms. Muran served as an attorney with Landau Omahana & Kopka. She has also served as an environmental legal consultant for Cichocki & Armstrong, Ltd., and as an extern with the United States Environmental Protection Agency.

Richard R. McGill, Jr. will be serving the Board as attorney assistant to Board member Kathleen Hennessey. Mr. McGill, also working in the Board's Chicago office, earned his Juris Doctorate from the University of Michigan Law School where he graduated cum laude in 1989, and his Bachelor of Arts, with distinction, from the University of Michigan in 1986.

Mr. McGill has worked as an environmental associate with the firm of Dickinson, Wright, Moon, Van Dusen & Freeman in both their Chicago and Detroit offices, for over five years.

Ira B. Lauter is also working out of the Board's Chicago office as an intern with the Board's legal staff. Mr. Lauter is currently pursuing a Juris Doctorate at the John Marshall Law School and expects to complete his studies in January of 1999. He earned a Bachelor of Arts in Political Science from Barat College where he was awarded Departmental honors in Political Science, and was on the Dean's List.

Mr. Lauter has previously served as a project assistant in the corporate securities group of Sidley & Austin and as a clerk for Leonard M. Ring & Associates.

The Board and staff hope that you will join them in welcoming Ms. Muran, Mr. McGill, and Mr. Lauter. ♦

RULEMAKING UPDATE

(Cont'd from p.1)

subdocket R94-1(B) relates to ammonia nitrogen. The segment of the proceeding adopted on May 16, 1996, designated subdocket R94-1(A), relates to mercury and lead.

The Agency filed the proposal, docketed by the Board as R94-1, on February 24, 1994, and the Board accepted it on March 17, 1994. The Board decided to proceed on the proposal as a Section 28.2 federally required rule on May 5, 1994. The Board proposed amendments based on the R94-1 proposal for First Notice publication in the Illinois Register on September 15, 1994 and Notices of Proposed Amendments appeared in the Register on September 30, 1994. The Board held a pre-hearing conference on the proposal on November 10 and 22, 1994 and January 26 and November 8, 1995.

The Board severed the docket on January 4, 1996, when it proposed the subdocket R94-1(A) amendments for First Notice publication in the Illinois Register. A Notice of Proposed Amendments appeared in the January 26, 1996 Register. The Board proposed the R94-1(A) amendments for Second Notice review by the Joint Committee on Administrative Rules (JCAR) on March 21, 1996. On May 16, 1996, the Board adopted the subdocket A amendments, after receiving a Certificate of No Objection from JCAR. The R94-1(A) amendments became effective on May 24, when filed with the Secretary of State. A Notice of Adopted Amendments appeared in the June 7, 1996 issue of the Illinois Register (at 20 Ill. Reg. 7682). (See issues 487, Oct., 1994; 503, Apr., 1996 & 505, June, 1996.)

The Board proposed the R94-1(B) amendments for First Notice publication in the Illinois Register on July 18, 1996. Notices of Proposed Amendments appeared in the August 9, 1996 issue of the Illinois Register, at 20 Ill. Reg. 10539 (Part 302) and 20 Ill. Reg. 10760 (Part 304). The Board proposed the amendments for Second Notice review by the Joint Committee on Administrative Rules (JCAR) on November 21, 1996. The Second Notice period began on November 25, 1996, when JCAR accepted the Second Notice package from the Board, and it ended on December 17, 1996 when JCAR voted "No Objection" to the proposed amendments. This leaves the Board free to adopt the amendments. (See issues 507, Aug., 1996 & 511, Dec., 1996)

Direct questions to Diane F. O'Neill at 312-814-6062 (Internet address: doneill@pcb016r1.state.il.us). Request copies of Board orders from the Board's Chicago receptionist at 312-814-3620. Please refer to docket R94-1(B). ♦

Amendments to the Steel and Foundry Industry Waste Regulations Adopted, R96-3

On January 9, 1997, the Board adopted amendments to the steel and foundry industry waste landfill regulations. The amendments, docketed as R96-3, were based on a petition filed by the Illinois Cast Metals Association on September 6, 1995 and amended on February 26, 1996. (See issue 497, Oct., 1995.) The former steel and foundry industry waste landfill regulations prohibited construction of new landfill units within a regulated recharge area or within 1200 feet of Class I or Class III groundwater. The Association requested that the Board create an exemption for those facilities that can demonstrate no potential to impact groundwater.

The Board conducted public hearings on the proposal on June 24, 1996, in Chicago, and June 26, 1996, in Edwardsville. Hearings scheduled earlier for November, 1995 did not occur, at the request of the petitioner for an opportunity to amend its petition. On August 1, 1996, the Board proposed the amendments for First Notice Publication in the Illinois Register. A Notice of Proposed Amendments appeared in the August 30, 1996 issue of the Illinois Register, at 20 Ill. Reg. 11544 (Part 817). The Board proposed the amendments for Second Notice review by the Joint Committee on Administrative Rules (JCAR) on November 7, 1996. The Second Notice period began on November 13, 1996, when JCAR accepted the Second Notice package from the Board, and ended on December 17, 1996, when JCAR voted "No Objection" to the proposed amendments. (See issues 508, Sept., 1996 & 511, Dec., 1997.)

Direct questions to the hearing officer, Audrey Lozuk-Lawless, at 312-814-6923 (Internet address: alozukla@pcb016r1.state.il.us). Request copies from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R96-3. ♦

Underground Storage Tank Amendments Proposed for Second Notice, R97-10

On January 9, 1997, the Board proposed amendments to the underground storage tank (UST) regulations under docket number R97-10, for Second Notice review by the Joint Committee on

Administrative Rules (JCAR). The purpose of the amendments is to make the Illinois rules more consistent with the federal Resource Conservation and Recovery Act (RCRA) Subtitle I requirements, to clarify issues that have arisen in implementation of the Illinois program, and to resolve issues remaining from the prior set of UST amendments. Predecessor docket R94-2(B) left open issues relating to site classification and risk-based cleanup objectives. P.A. 89-457 requires the Board to complete this rulemaking on or before March 15, 1997. (See issues 509, Oct., 1996; 490, Jan., 1995; 486, Sept., 1994 & 487, Oct., 1994.) On October 3, the Board dismissed R94-2(B).

The Illinois Environmental Protection Agency (Agency) filed the rulemaking proposal with the Board on September 16, 1996, pursuant to P.A. 89-457 (effective May 22, 1996), to amend the UST rules. On October 3, 1996, the Board proposed the amendments for First Notice publication in the Illinois Register. (See issue 510, Oct., 1996.) A Notice of Proposed Amendments appeared in the October 25, 1996 issue of the Illinois Register, at 20 Ill. Reg. 13806, starting the statutory 45-day public comment period on the proposed amendments. The Second Notice period began on January 13, 1997, when JCAR accepted the Second Notice package from the Board. It will end after 45 days, on February 27, 1997, or when JCAR votes "No Objection" to the proposed amendments, whichever comes first. This will leave the Board free to adopt the amendments.

Direct questions to Marie E. Tipsord, at 312-814-4925 or 618-498-9803 (Internet address: mtipsor@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R97-10. ♦

Livestock Waste Regulations Proposed for First Notice, R97-15

On December 5, 1996, the Board proposed new livestock waste regulations for First Notice publication in the *Illinois Register*. The new rules would replace emergency rules adopted by the Board on October 29, 1996, under docket number R97-14. The rules would include standards for livestock waste lagoon and holding pond construction and management, management and agricultural application of waste, certification of livestock managers, and permitting of facilities in Illinois.

The Livestock Waste Management Act, P.A. 89-456, was effective May 21, 1996. That legislation established the Livestock Management Facilities Advisory Committee, composed of the Directors of the

Illinois Department of Agriculture (IDA), Department of Natural Resources, Department of Public Health, and the Environmental Protection Agency. The advisory committee would make recommendations to the IDA for development of standards for livestock management facilities. The IDA filed a rulemaking proposal on October 15, 1996, requesting that the Board adopt emergency rules governing livestock waste. Upon finding that "a situation exists that constitutes a threat to the public interest, safety or welfare", the Board adopted emergency rules based on the proposal on October 29, 1996, which became effective October 31, 1996 and which will expire on March 30, 1997. The IDA filed a proposal for permanent rules to replace the emergency rules on November 21, 1996, which the Board docketed as R97-15.

The emergency livestock management facilities regulations are codified in a new Part in Subtitle E of the Illinois environmental regulations, along with the existing agricultural rules. The existing rules derived in significant part from the federal National Pollution Discharge Elimination System (NPDES) regulations under the Clean Water Act (CWA). The scope of the new rules is broader than the scope of the existing NPDES-based regulations. The current proposal for permanent rules is substantially the same as the emergency rules. The Board conducted four public hearings on the proposed rules throughout the state in January: January 14, in Jacksonville, January 27, in DeKalb, January 29, in Galesburg, and January 31, in Mt. Vernon. The Board rescheduled a hearing in Champaign until February 7, 1997 due to hazardous weather on the originally-scheduled date.

Direct questions to Audrey Lozuk-Lawless, at 312-814-6923 or 815-753-0948 (Internet address: alozukla@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R97-15. ♦

ROP Proposal Accepted, Proposed for First Notice, R97-24

On January 23, 1997, the Board accepted a new rulemaking under the federal Clean Air Act (CAA) and "fast-track" provisions of the Illinois Environmental Protection Act (Act). The amendments are proposed for First Notice publication in the *Illinois Register* without substantive review. The Illinois Environmental Protection Agency (Agency) filed the proposal with the Board on January 16, 1997. The proposal would achieve reductions in VOM emissions by imposing more stringent limitations and controls on the solvents used

for cold-cleaning degreasing. The proposal would amend the volatile organic material (VOM) emissions control requirements of the air pollution control regulations to institute a federally-required nine percent rate of progress (9% ROP) in the metropolitan Chicago and East St. Louis areas.

Section 182(b) of the CAA required states having ozone nonattainment areas rated as severe or moderate to comply with a 15 percent ROP requirement by 1996. The Board completed the 15% ROP requirement in nine dockets, seven primary dockets adopted between September 15, 1994 and May 4, 1995 and two "clean-up" dockets on February 1 and October 17, 1996. (See *issues 495, June-July, 1995; 502, Feb., 1996 & 510, Nov., 1996.*) Section 182(c) of the CAA further requires states to annually reduce VOM emissions by three percent in severe nonattainment areas, such as the Chicago metropolitan area. The Agency's proposal would accomplish those required reductions for the years 1996 through 1999 in this single proposal.

Section 28.5 of the Act requires the Board to proceed within set time-frames toward the adoption of the proposed amendments. The Board lacks any discretion under the statute to adjust these time-frames under any circumstances. The Board has scheduled three hearing dates in this matter, each for a prescribed purpose. The first day of hearing is reserved for presentation by the Agency and questions of Agency witnesses. The second of hearing is reserved for presentation by affected entities and all other interested persons. The third day of hearing is reserved for any Agency response and responses of other parties. The hearings will be continued from day to day, as necessary, until all business is completed. However, the second and third hearing dates are subject to cancellation if the level of public interest and participation so warrant. The three statutory days of hearings are as follows: March 4, April 1, and April 15, 1997, at the James R. Thompson Center, 100 West Randolph Street, Chicago. (Call for room assignment.)

Direct questions to K.C. Poulos, at 312-814-3665 (Internet address: kpoulos@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R97-24. ♦

Amendments to Air Permit Requirements Proposed for First Notice, R96-17

On December 19, 1996, the Board proposed amendments to the permit requirements of the air pollution control regulations. Docket R96-17 would amend the list of emission units and activities that are

exempt from the permit requirements. It would also amend the rules to enhance consistency between the exemptions and the "insignificant activities" provision under the federally-mandated Clean Air Act Permit Program (CAAPP).

The Illinois EPA (Agency) filed the proposal with the Board on May 10, 1996. The Board found that the petition fulfilled the applicable procedural requirements and accepted it by an order dated May 16, 1996. (See issue 505, June, 1996.) The Board conducted public hearings on the proposal on July 23, 1996, in Collinsville, and August 16, 1996, in Chicago.

Notices of Proposed Amendments appeared in the January 3, 1997 issue of the *Illinois Register*, at 21 Ill. Reg. 329 (Part 211) and 342 (Part 201). The First Notice period will expire 45 days after that date of publication, i.e., on February 17, 1997, after which time the Board will be free to propose the amendments for Second Notice review by the Joint Committee on Administrative Rules (JCAR). Direct questions to Marie E. Tipsord, at 312-814-4925 or 618-498-9803 (Internet address: mtipsord@pcb016r1.state.il.us). Request copies of Board orders from the Board's Chicago receptionist, at 312-814-3620. Please refer to docket R96-17. ♦

Pretreatment Amendments Proposed for Public Comment, R97-7

On January 9, 1997, the Board proposed identical-in-substance amendments to the wastewater pretreatment rules for public comment. Docket R97-7 includes federal amendments that occurred in the period January 1 through June 30, 1996. During that time USEPA undertook amendments that affected pretreatment requirements. In amendments of April 8 (two actions), April 30, and June 28, 1996, USEPA adopted and revised its Phase III hazardous waste land disposal restrictions (LDRs). The federal Phase III LDR amendments included a requirement that a person disposing of covered wastes into a sewage collection system not only treat the waste to remove its corrosivity, but also remove any other characteristic for which it is considered hazardous waste. On May 14, 1996, USEPA corrected errors in the July 1, 1995 issue of the Code of Federal Regulations (CFR). The Board proposed updating the appropriate incorporations of the federal regulations by reference in response to the Phase III LDRs. No action was necessary based on the CFR correction.

A Notice of Proposed Amendments appeared in the January 24, 1997 issue of the *Illinois Register*, at 21 Ill. Reg. 1147. The public comment period will end 45 days after that date of publication, on March 10, 1997,

after which time the Board will be free to adopt amendments based on the proposal. Direct questions to Diane F. O'Neill at 312-814-6062 (Internet address: doneill@pcb016r1.state.il.us). Request copies of Board orders from the Board's Chicago receptionist at 312-814-3620. Please refer to docket R97-7. ♦

Additional Comment Sought on Air Toxics Proposal, R96-4

On January 9, 1997, the Board sought additional comment on the proposed toxic air contaminants amendments, under docket R96-4. The order set forth revisions the Board intends to make in the proposal and requested comment on those revisions. The extended comment period will expire on February 15, 1997. The Board proposed amendments to the toxic air contaminants regulations on August 15, 1996 for First Notice publication in the *Illinois Register*. (See issue 508, Sept., 1996.) The proposed amendments would add several substances either designated as federal hazardous air pollutants (HAPs) pursuant to section 112(b) of the Clean Air Act (CAA) or designated by USEPA as of concern under its "Great Waters" program under section 112(m) of the CAA. The proposal would also require all sources that meet certain requirements to submit an Illinois toxic air contaminants (ITAC) source report for calendar year 1996, and it would correct typographical errors in the existing ITAC list.

The Agency filed its proposal on October 13, 1995 to update the existing ITAC list at 35 Ill. Adm. Code 232. The Board issued an order on November 2, 1995 that accepted the proposal and dismissed older subdockets R90-1(C), relating to toxic air contaminant reporting requirements, and R90-1(D), relating to adding styrene to the list of toxic air contaminants. (See issue 499, Dec., 1995.) The Board consolidated the subject matter of the older subdockets into new docket R96-4.

The Board sought additional public comments in response to comments received. After review of the public comments, the Board suggested a number of revisions to the original proposal. The Board now seeks comment on the prospective revisions.

Direct questions to Charles M. Feinen, at 312-814-3473 (Internet address: cfeinen@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R96-4. ♦

Emission Reduction Market System Proposal Accepted, R97-13

On December 5, 1997, the Board accepted a rulemaking proposal from the Agency. The proposal would establish a system for reducing volatile organic material (VOM) emissions that would use market forces to this end. The proposal would implement Section 9.8 of the Act. The proposal would require a 12 percent reduction in VOM emissions from all covered sources in the Chicago metropolitan area. Those sources could comply by reducing emissions or by purchase of emission units in the market.

In accepting the proposal, the Board noted that the emissions reductions would go toward satisfying the requirement in the federal Clean Air Act (CAA) that states annually reduce VOM emissions by three percent in severe nonattainment areas, such as the Chicago metropolitan area. The Agency noted that USEPA formally found on July 10, 1996 (61 Fed. Reg. 36294) that Illinois had failed to timely submit a state implementation plan (SIP) revision including these three percent rate of progress (ROP) provisions. That notice started an 18-month time clock for mandatory federal sanctions, which could include the federal imposition of 2:1 offset requirements and the loss of federal highway dollars. Thus, Illinois has until January 3, 1998 to submit an appropriate SIP revision to USEPA that includes the required 3% ROP measures.

Direct questions to Charles M. Feinen, at 312-814-3473 (Internet address: cfeinen@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R97-13. ♦

Comments or Proposal Sought on Proportionate Share Liability, R97-16

On December 5, 1996, the Board solicited comment on a proposal for fulfilling the new Act Section 58.9 proportionate share liability requirements. Section 58.9, added by P.A. 89-443, effective July 1, 1996, repealed the former Act provision for joint and several liability for remedial action costs, replacing it with a concept of "proportionate share liability", under which a person's liability is limited to his or her own "proportionate degree of responsibility". Section 58.9 further holds harmless those persons who did not materially contribute to releases of regulated substances at the subject site. Finally, Section 58.9 requires the Board to adopt regulations and procedures for determining proportionate share liability within 18

months of when the amendment was effective--i.e., by January 1, 1998. The Board opened reserved docket R97-16 and sought public comment or a rulemaking proposal in furtherance of timely fulfilling that mandate.

Direct questions to Cynthia I. Ervin, at 217-524-8509 (Internet address: cervin@pcb084r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to docket R97-16. ♦

Routine Identical-in-Substance Dockets Reserved, R97-17 through R97-23

On December 19, 1996, the Board reserved a series of routine identical-in-substance dockets. The dockets would each include any amendments to the Illinois regulations made necessary by USEPA amendments to the relevant corresponding federal rules. The time-frame of the reserved dockets is July 1 through December 31, 1996. The dockets and their respective programs are as follows:

- R97-17 Update to Exemptions from the Definition of VOM
- R97-18 SDWA Drinking Water Update
- R97-19 Underground Injection Control (UIC) Update
- R97-20 RCRA Subtitle D Municipal Solid Waste Landfill Update
- R97-21 RCRA Subtitle C Hazardous Waste Management Update
- R97-22 RCRA Subtitle I Underground Storage Tank Update
- R97-23 CWA Wastewater Pretreatment Update

The Board's preliminary review of federal actions during the update period reveals that federal actions during the period will require Board action in some of these programs and not in others. At present it appears that amendments to the exemptions from the definition of VOM will be required based on an October 8, 1996 federal action. Amendment of the RCRA Subtitle D municipal solid waste landfill rules may be necessary based on one or more of federal actions of July 1, September 25, and November 27, 1996. RCRA Subtitle C hazardous waste management amendments may be required based on federal actions of July 1 and 10, August 5 and 26, and November 4 and 25, 1996. Revisions to the federal wastewater pretreatment rules on July 8 and November 6, 1996 may require Board action. As yet, it does not appear that federal

amendments to the SDWA drinking water and UIC rules and the RCRA underground storage tank rules will require action by the Board. The Board intends to verify the federal actions during the period and either initiate action to amend the appropriate Illinois regulations or to dismiss the reserved dockets, as appropriate.

Direct questions to Michael J. McCambridge, at 312-814-6924 (Internet: mmccambr@pcb016r1.state.il.us). Request copies of Board orders from Victoria Agyeman, at 312-814-3620 (Internet address: vagyeman@pcb016r1.state.il.us). Please refer to the appropriate reserved identical-in-substance docket. ♦

SIGNIFIANT FEDERAL ACTIONS

The following is a brief summary of recent federal actions related to Board proceedings and federal actions that may be of interest to the reader. This does not represent a complete listing or summary of all federal actions by the USEPA or federal actions affecting the environmental laws or regulations of the State of Illinois. To avoid duplication of the various commercial environmental update services while at the same time improving timeliness of this newsletter, we will begin to be more selective and concise in synopsisizing information. Comments on this revised approach are welcome. For additional information on federal actions, the reader should reference the Federal Registers for this time period. Additionally, the Board's Home Page at http://www.state.il.us/pcb/fed_reg.htm provides some tips on searching for federal actions on the Internet.

Amendments to Streamline the NPDES Program Regulations - Part II

On December 11, 1996 at 61 Fed. Reg. 65267, the USEPA proposed revisions to the NPDES regulations (40 CFR parts 122, 123, 124 and 125). The intent of the revisions is to streamline the NPDES and RCRA permitting procedures. USEPA believes that the revisions eliminate redundant regulatory language, provide clarification, and remove or streamline unnecessary procedures which do not provide any environmental benefits. Revisions are also proposed for 40 CFR 22, 117, 144, 270 and 271 to conform with the proposed changes. The revisions include the correction of errors, the removal of obsolete provisions, the removal of superfluous language and the addition of new headings. This effort to streamline the regulations is a continuation of the effort undertaken by the USEPA in final rules issued on June 29, 1995 at 60 Fed. Reg.

33926. Comments on the proposal may be filed with the USEPA through February 10, 1997. ♦

National Toxics Rule: Remand of Water Quality Criteria for Dioxin and Pentachlorophenol to USEPA for Response to Comments

The USEPA published a document entitled "Response to Comments from American Forest and Paper Association (AFPA) on Two of the Exposure Assumptions Used by USEPA in Developing the Human Health Water Quality Criteria of Dioxin and Pentachlorophenol" on December 11, 1996 at 61 Fed. Reg. 65183. The document represents the USEPA's response pursuant to the remand of the D.C. District Court in American Forest and Paper Association v. USEPA (Civil Action No. 93-CV-0694). USEPA is responding to comments from AFPA challenging the promulgation of human health water quality standards for dioxin and pentachlorophenol. The document addresses two exposure assumptions used by the USEPA: an assumption that daily water consumption is 2 liters and an assumption that all consumed fish are contaminated at criteria levels.

Section 101-607 of the Clean Water Act requires the Illinois Environmental Protection Agency (Agency) to periodically, but at least every three years, review the water quality standards applicable in Illinois. This review is commonly referred to as the Triennial Review Process. Based on this review, the Agency may propose amendments to the water quality standards. ♦

National Emission Standards for Hazardous Air Pollutants for Source Categories

On December 5, 1996 at 61 Fed. Reg. 64571, the USEPA took final action on some of the amendments to the Hazardous Organic NESHAP rules or HON as proposed on August 26, 1996 at 61 Fed. Reg. 43698. The amendments eliminate the need for filing implementation plans for existing sources' emission points that are not included in emission averages. These implementation plans would otherwise have been due December 31, 1996. In addition, the amendments allow the filing of requests for compliance extensions up to four months before the April 1997 compliance date. Pursuant to Section 9.1(b) of the Environmental Protection these standards are "applicable in the State of Illinois and are enforceable under the Act". ♦

Protection of Stratospheric Ozone: Reconsideration of the Ban on Fire Extinguishers Containing HCFCs

On December 4, 1996, the USEPA at 61 Fed. Reg. 64423 amended the Class II Nonessential Products Ban to provide an exemption for portable fire extinguishing equipment that contains hydrochloroflourocarbons (HCFCs) for nonresidential applications. ♦

Loan Guarantees for Construction of Treatment Works: Removal of Legally Obsolete Rule

On December 4, 1996 at 61 Fed. Reg. 64290, the USEPA removed from the Code of Federal Regulations (CFR) 40 CFR Part 39. The rule was intended to implement a provision of law allowing the USEPA Administrator to guarantee state and municipal loans for wastewater treatment works. The rule was revoked because it is legally obsolete. ♦

Preliminary Assessment Information and Health Safety Data Reporting: Stay of Final Rule

On December 11, 1996 at 61 Fed. Reg. 65186, the USEPA stayed provisions of a rule for nonylphenol ethoxylates published in the October 29, 1996 Federal Register at 61 Fed. Reg. 55872. The rule added chemical substances to two model information gathering rules: the Toxic Substances Control Act (TSCA) Section 8(a) Preliminary Information Rule (PAIR) and the TSCA Section 8(d) Health and Safety Data Reporting Rule. The TSCA Interagency Testing Committee (ITC) requested a stay in order to avoid ambiguities resulting from the use of alternate CAS numbers cited in ITC's 38th report. ♦

Significant New Uses of Certain Chemical Substances

On December 2, 1996 at 61 Fed. Reg. 63726, the USEPA promulgated significant new use rules (SNURs) under Section 5(a)(2) of the Toxic Substance Control Act for certain chemical substances which were the subject of TSCA section 5(e) consent orders issued by EPA. The new rules require persons who intend to manufacture, import or process these substances for a significant new use to notify USEPA at least 90 days before commencing the manufacturing or processing of the substance for use. The effective date of this rule is January 31, 1997 ♦

Hazardous Waste Management System; Identification and Listing of Hazardous Waste; Amendment

On January 13, 1997 the USEPA at 62 Fed. Reg. 1678 amended 40 CFR Part 261, Appendix IX to reflect changes in ownership and name for Envirite Corporation in Canton, Ohio; Harvey, Illinois and York, Pennsylvania. The Board took a similar action on December 19, 1996, in AS 94-10, to amend a previously granted adjusted standard for Envirite's facility located in Harvey, Illinois. ♦

Occupational Exposure to Methylene Chloride; Final Rule

On January 10, 1997 at 62 Fed Reg. 1493 the Occupational Safety and Health Administration (OSHA) amended its existing regulations for employee exposure to methylene chloride (MC), (also known as methylene dichloride, dichloromethane or DCM). OSHA has determined that the current limits allow employee exposure to a significant risk of material impairment of health. OSHA reduced the existing 8-hour time-weighted average (TWA) exposure from 500 parts MC per million parts (ppm) of air to 25 ppm. Also, OSHA deleted the existing ceiling limit concentration of 1,000 ppm and reduced the existing short-term exposure limit from 2,000 ppm (measured over five minutes in any 2 hour period) to 125 ppm, measured as a 15-minute TWA. In addition, the Agency set an "action level" of 12.5 ppm, measured as an 8-hour TWA. The final rule also contains provisions for exposure control, personal protective equipment, employee exposure monitoring, training, medical surveillance, hazard communication, regulated areas, and recordkeeping. OSHA believes that the final standard will prevent an estimated 31 cancer deaths per year and an estimated three deaths per year from acute central nervous system and carboxyhemoglobinemic effects and will also reduce cardiovascular disease and material impairment of the central nervous system. ♦

Calls for State Implementation Plan Revisions for Certain States To Reduce Regional Transport of Ozone

On January 10, 1996, the USEPA at 61 Fed Reg. 1420 announced its intention to publish a Notice of Proposed Rulemaking around March of 1997, with final action scheduled for summer 1997. The intended proposed rulemaking requires States to submit State

Implementation Plan (SIP) measures to ensure that emission reductions are achieved as needed to prevent significant transport of ozone (smog) pollution across state boundaries in the Eastern United States. These precursors include volatile organic compounds (VOC) and oxides of nitrogen. The notice announces USEPA's intention to conduct the formal process for implementing the regional reductions in ozone precursors that are necessary for areas in the Eastern United States to reach attainment. ♦

National Emission Standards for Hazardous Air Pollutants from Secondary Lead Smelting

On December 12, 1996 at 62 Fed. Reg. 65334, by direct final rule, the USEPA amended the national emission standards for hazardous air pollutants (NESHAP) for secondary lead smelting. USEPA extended by six months the compliance date and the dates on which existing smelters must submit standard operating procedures (SOP) manuals. The rule requires current smelters to submit SOP manuals by December 23, 1996, and to achieve compliance by June 23, 1997. USEPA also set the deadline for requests for extensions of compliance at June 23, 1997. USEPA is planning to revise portions of the final rule in response to comments. USEPA plans to publish the revisions in February 1997. Pursuant to Section 9.1(b) of the Environmental Protection these and all NESHAP standards are "applicable in the State of Illinois and are enforceable under the Act" without rulemaking action by the Board. ♦

Pesticide Toxicity Report Available from USEPA

The final Pesticide Regulation Notice entitled "Toxicologically Significant Levels of Pesticide Active Ingredients," which provides the USEPA interpretation of "toxicologically significant" as it applies to contaminants in pesticide products that are also active ingredients, is available from USEPA. Information on obtaining the document was published on December 13, 1996 at 61 Fed. Reg. 65573. ♦

USEPA Proposes New Particulate Matter Standards

On December 13, 1996 at 61 Fed. Reg. 65637, USEPA proposed revisions to the current PM₁₀ standards pursuant to its review of the national ambient air quality standards (NAAQS) under the Clean Air Act. USEPA proposes adding two new primary PM_{2.5} standards set at 15µg/m³, annual mean, and 50µg/m³,

24-hour average. USEPA also solicits comments on alternative approaches of selecting the PM_{2.5} standards. The proposed standards are intended to provide increased protection against health effects related to PM particular respiratory problems. Written comments can be submitted to USEPA through February 18, 1997. This and any other NAAQS amendments would be proposed to the Board by the Illinois Environmental Protection Agency as a CAA fast-track rulemaking pursuant to Section 28.5 of the Act. ♦

USEPA Proposes Revisions to Standards for Ozone

On December 13, 1996 at 61 Fed. Reg. 65715, USEPA also proposed revisions to the current standards for ozone (O₃) pursuant to its review of the national ambient air quality standards (NAAQS) under the Clean Air Act. USEPA proposes changing the averaging time from 1-hour averages to 8-hour averages. The change in averaging times would result in lowering the present standard from 0.12 parts per million. USEPA also proposes changing the test for attainment based on a 3-year average of 8-hour O₃ concentrations. Comments on the proposal may be submitted to the USEPA through February 18, 1997. This and any other NAAQS amendments would be proposed to the Board by the Illinois Environmental Protection Agency as a CAA fast-track rulemaking pursuant to Section 28.5 of the Act. ♦

Interim Implementation Policy on New and Revised Ozone and Particulate Matter National Ambient Air Quality Standards

USEPA stated its proposed policy regarding interim implementation requirements for ozone and PM air pollution control during the period following promulgation of revisions to the NAAQS. The proposed policy was published in the Federal Register on December 13, 1996 at 61 Fed. Reg. 65751. ♦

USEPA Discusses Key Ozone and Particulate Matter Standards, Issues, and Regional Haze Regulations

On December 13, 1996 at 61 Fed. Reg. 65763, USEPA provided advance notice of key issues related to new or revised policies and/or regulations to implement revised NAAQS for ozone and PM, and development of a regional haze program. USEPA discusses a broad range of options, principles and question related to each key issue. Written comments on the proposal can be submitted to USEPA through February 18, 1997. ♦

USEPA Proposed Requirements for Particulate Matter, PM_{2.5}, New Reference Method, and Ambient Air Quality Surveillance

On December 13, 1996 at 61 Fed. Reg. 65779, USEPA proposed revisions to 40 CFR Part 58. The proposed revision is intended to establish ambient air quality monitoring requirements for PM_{2.5} as measured by a new reference method being proposed. The proposed rule also proposes revisions to existing ambient air quality monitoring requirements for PM₁₀. Comments may be submitted to USEPA through February 18, 1997. ♦

Toxic Substances Master Testing List Available

On December 13, 1996 at 61 Fed. Reg. 65935, USEPA announced the availability of its 1996 Master Testing List (MTL). The MTL is an important component of the Toxic Substances Control Act (TSCA) Chemical's Program. USEPA has been using the MTL since 1990 to establish the Agency's Chemical Testing Program agenda under TSCA. USEPA seeks comments on the MTL. ♦

National Emission Standards Corrections Announced for Aerospace Manufacturing and Rework Facilities and Shipbuilding and Ship Repair (Surface Coating) Operations

On December 17, 1996 at 61 Fed. Reg. 66226, USEPA corrected the NESHAP for Aerospace Manufacturing and Rework Facilities and Shipbuilding and Ship Repair (Surface Coating) Operations. The corrected regulation was originally published on September 1, 1995 at 60 Fed. Reg. 45948 and December 15, 1995 at 60 Fed. Reg. 64330. The corrections do not change the intended effect of the rule. The changes correct errors in numbering, punctuation and misnomers. Pursuant to Section 9.1(b) of the Environmental Protection these and all NESHAP standards are "applicable in the State of Illinois and are enforceable under the Act" without rulemaking action by the Board. ♦

Acid Rain Program News: Nitrogen Oxides Emission Standards Changing

On December 19, 1996 at 61 Fed. Reg. 67111, the USEPA promulgated standards for the second phase of the Nitrogen Oxides Reduction Program under Title IV

of the Clean Air Act. USEPA established nitrogen oxides (NO_x) emission limitations for certain coal-fired electric utility units and revised NO_x emission limitations for others as specified by section 407(b)(2) of the Clean Air Act.

On January 23, 1997, USEPA at 62 Fed. Reg. 3463 corrected the effective date and other inadvertent errors contained in the emission limitations for the second phase of the Nitrogen Oxides Reduction Program under Title IV of the Clean Air Act. These emission limitations will reduce the serious adverse effects of NO_x emissions on human health, visibility, ecosystems, and materials. Under Section 39.5 of the Act, the requirements of Title IV are directly enforceable in Illinois. ♦

USEPA Approves REXAM Variance

On December 23, 1996 at 61 Fed. Reg. 67469, USEPA approved the Illinois SIP revision containing the adjusted standard for REXAM Medical Packaging Inc. in Mundelein, Lake County, Illinois. The Board granted the variance from certain of the Chicago VOM and RACT rules in docket PCB 95-99 on October 19, 1995. The approval of the SIP revision is effective on February 21, 1997 unless expressly withdrawn prior to that date. ♦

Sodium Bicarbonate and Potassium Bicarbonate Tolerance Exemptions Approved

On December 23 1996 at 61 Fed. Reg. 67472, USEPA adopted a regulation establishing exemptions from the requirements of a tolerance for residues of the biochemical pesticides sodium bicarbonate and potassium bicarbonate in or on all raw agricultural commodities, when applied as fungicides or post-harvest fungicides in accordance with good agricultural practices. ♦

USEPA Issues Draft Rodenticide Bait and Other Vertebrate Pesticide Regulations

USEPA announced the availability of a draft pesticide regulation notice summarizing policies affecting the registrations of rodenticide baits and other vertebrate pesticide products. The notice appeared on December 26, 1996 at 61 Fed. Reg. 68035, comments on the draft regulation can be submitted to the USEPA. The notice outlines historical policies which are largely or completely specific to vertebrate pesticides especially rodenticide baits. ♦

Acid Rain Program: Permits, Allowance System, Sulfur Dioxide Opt-Ins, Continuous Emission Monitoring Excess Emissions, and Appeal Procedures

USEPA proposed revisions on December 27, 1996 at 61 Fed. Reg. 68339 to streamline the Acid Rain Program which was established pursuant to Title IV of the Clean Air Act. The proposed revisions also revise allocations of sulfur dioxide allowances. Comments on the proposal may be submitted to the USEPA before January 27, 1997. ♦

Hazardous Air Pollutants: Final Rules Require Constructed or Reconstructed Major Sources to Use MACT

Final rules implementing certain provisions in section 112(g) of the Clean Air Act as amended in 1990 were promulgated by the USEPA on December 27, 1996 at 61 Fed. Reg. 68383. This rule requires all owners or operators of major sources that are constructed or reconstructed, in States with an approved Title V permit program, to install maximum achievable control technology (MACT) unless specifically exempted. This rule is effective January 27, 1997. Illinois' Title V program was approved on March 7, 1995 at 60 Fed. Reg. 12478. The approval was extended through March 7, 1998 at 61 Fed. Reg. 56367, October 31, 1996. ♦

USEPA Proposes Emission Standards for Hazardous Air Pollutants for Flexible Polyurethane Foam Industry

On December 27, 1996 at 61 Fed. Reg. 68405, USEPA proposed rules to reduce emissions of hazardous air pollutants from existing and new facilities that manufacture flexible polyurethane foam. USEPA estimates that the proposed rule will reduce emissions of these pollutants by over 12, 500 megagrams per year, with 99 percent of this total expected to be from reduction of methylene chloride. The proposed rule implements section 112(d) of the Clean Air Act of 1990. Comments may be submitted to USEPA before February 25, 1997. ♦

USEPA Proposes Emission Standards for Hazardous Air Pollutants in Phosphoric Acid Manufacturing and Phosphate Fertilizers Production.

On December 27, 1996 at 61 Fed. Reg. 68429, USEPA proposed national emission standards for hazardous air pollutants for new and existing major

sources in phosphoric acid manufacturing and phosphate fertilizers production plants. Human exposure to constituents in these emissions may be associated with adverse carcinogenic, respiratory, nervous system, dermal, developmental, and/or reproductive health effects. The rule is proposed under the authority of section 112(d) of the Clean Air Act of 1990. Comments may be submitted to USEPA before February 25, 1997. Pursuant to Section 9.1(b) of the Environmental Protection these and all NESHAP standards are "applicable in the State of Illinois and are enforceable under the Act" without rulemaking action by the Board. ♦

Protection of Stratospheric Ozone: Refrigerant Reclamation Requirements Extended

The USEPA amended 40 CFR Part 82, refrigerant recycling regulations on December 27, 1996 at 61 Fed. Reg. 68505. The amendments extend the effectiveness of the refrigerant purity requirements of Sec. 82.154(g) and (h) until USEPA adopts revised purity requirements. The amendments are effective January 1, 1997. ♦

Safe Drinking Water Act State Revolving Fund Program Guidance: Comments on Agency Information Collection Activities Sought

The USEPA requests comments on its proposed information collection system for Safe Drinking Water Act State Revolving Fund Program Guidance. The proposed collection system as proposed to the Office of Management and Budget was printed on December 31, 1996 at 61 Fed. Reg. 69089. Comments may be submitted to USEPA before March 3, 1997. ♦

Civil Monetary Penalty Rule Gets Inflation Adjustment Provision

On December 31, 1997, USEPA at 61 Fed. Reg. 69359, issued a rule to adjust USEPA's civil monetary penalties for inflation on a periodic basis. The first adjustment increases almost all of the penalty provisions by 10 percent. USEPA is required to review its penalties at least once every four years thereafter and adjust them as necessary. ♦

California Ready to Enforce Nonroad Engine and Vehicle Pollution Control Standards

On December 31, 1996, USEPA at 61 Fed. Reg. 69093 authorized the State of California to enforce emission standards and test procedures for nonroad

recreational vehicles and engines including: off road motorcycles, all-terrain vehicles, golf carts, go-karts 25 horsepower or above, and specialty vehicles less than 25 horsepower. This decision affects not only persons in California but also manufacturers who produce vehicles for sale in California. ♦

USEPA Announces New Sulfur Dioxide Emissions Program; Seeks Comment

On January 2, 1997, USEPA proposed at 62 Fed. Reg. 209, a new level intervention program under authority of the Clean Air Act to supplement protection provided by the primary and secondary sulfur dioxide national ambient air quality standards. The proposed intervention level program addresses USEPA's concern that some of the asthmatic population may be at increased health risk when exposed to 5-minute peak concentrations of SO₂ in the ambient air while exercising. USEPA is also proposing the implementation strategy for identifying and prioritizing areas with potential 5-minute SO₂ peaks. Comments on the proposal may be submitted to USEPA before March 3, 1997. ♦

USEPA Approves Reynolds Metal Adjusted Standard

On January 21, 1997 at 62 Fed. Reg. 2916, USEPA approved the Illinois SIP revision involving the adjusted standard for Reynolds Metals Company in McCook, Illinois. The Board granted the adjusted standard from certain of the Chicago RACT rules in docket AS 91-8 on September 25, 1995. The approval of the SIP revision is effective March 24, 1997, unless expressly withdrawn prior to that date. ♦

USEPA Extends K088 Waste Land Disposal Restriction Capacity Variance

On January 14, 1997 at 62 Fed. Reg. 1991, USEPA amended 40 CFR Part 268. Under the Land Disposal Restrictions (LDR) program of the Resource Conservation and Recovery Act (RCRA), USEPA is extending the current national capacity variance for spent potliners from primary aluminum production (Hazardous Waste Number K088) for six (6) months. Thus, K088 wastes do not have to be treated to meet LDR treatment standards until July 8, 1997, six months from the current treatment standard effective date of January 8, 1997. USEPA extended the national capacity variance due to unanticipated performance problems with the

treatment technology which provides most of the available treatment capacity for these wastes. As a result, USEPA does not believe that sufficient treatment capacity which minimizes short and long-term threats to human health and the environment posed by land disposal of the potliners is presently available. The length of the extension of the national capacity variance is based on USEPA's best current estimate of the time it will take to modify, evaluate, and correct the current deficiencies in treatment performance. The Board will be adopting rules "identical in substance" to these USEPA rules pursuant to Section 7.5 of the Act in consolidated docket R96-10/R97-5 RCRA Update of USEPA Actions from 7-1-95 thru 6-30-96. These amendments have been moved into this docket since they affect other federal amendments in the docket. ♦

Compliance Dates Revised for Hazardous Air Pollutants Emissions: Group I Polymers and Resins and Group IV Polymers and Resins

On January 14, 1997 at 62 Fed. Reg. 1835, USEPA corrected an error in the final Group I Polymers and Resins NESHAP, by extending the compliance date for heat exchange system. On September 5, 1996, the USEPA promulgated 40 CFR part 63, Subpart U--National Emission Standards for Hazardous Air Pollutants (NESHAP) for Group I Polymers and Resins (61 FR 46906), and on September 12, 1996, the EPA promulgated 40 CFR part 63, Subpart JJJ-Group IV Polymers and Resins NESHAP (61 FR 48208). In addition, this action proposes to extend the initial compliance date for equipment leaks for both the Group I and Group IV Polymers and Resins NESHAP, to allow time necessary for affected sources to respond to amendments to the hazardous organic NESHAP (HON) equipment leak provisions promulgated on December 26, 1996, which are directly referenced in both subparts U and JJJ. Pursuant to Section 9.1(b) of the Environmental Protection these and all NESHAP standards are "applicable in the State of Illinois and are enforceable under the Act" without rulemaking action by the Board. ♦

Emission Rules Revised for Hazardous Air Pollutants for Source Categories: Organic Hazardous Air Pollutants From the Synthetic Organic Chemical Manufacturing Industry and Other Processes Subject to the Negotiated Regulation for Equipment Leaks

On January 17, 1997 at 62 Fed. Reg. 2721, USEPA amended National Emission Standards for Hazardous

Air Pollutants for Source Categories: Organic Hazardous Air Pollutants from the Synthetic Organic Chemical Manufacturing Industry and Other Processes Subject to the Negotiated Regulation for Equipment Leaks. This rule is commonly known as the Hazardous Organic NESHAP or the HON and was issued on April 22, 1994 and June 6, 1994. These amendments to the rule will not change the basic control requirements of the rule or the level of health protection it provides. The rule requires new and existing major sources to control emissions of hazardous air pollutants to the level reflecting application of the maximum achievable control technology promulgated.

The amendments are USEPA's response to petitions filed in June 1994 for review of the April 1994 rule in the U.S. Court of Appeals for the District of Columbia Circuit. Among the amendments are revisions to definitions that apply to wastewater and wastewater treatment and revised control and compliance provisions for wastewater. A new compliance date of April 22, 1999, is proposed for process wastewater, heat exchange systems, equipment subject to the provisions of Sec. 63.149, and maintenance wastewater. The USEPA also proposes a separate compliance date for wastewater streams affected by the omission of nitrobenzene from the list of compounds subject to the wastewater provisions. The revisions to the other provisions to the rule also include corrections and clarifications to ensure the rule is implemented as intended. The amendments also include some additional compliance options that would reduce the burden associated with the recordkeeping and reporting requirements of the rule. Pursuant to Section 9.1(b) of the Environmental Protection these and all NESHAP standards are "applicable in the State of Illinois and are enforceable under the Act" without rulemaking action by the Board. ♦

Stratospheric Ozone Rule Corrected

USEPA corrected 40 CFR Part 82 on January 16, 1997 at 62 Fed. Reg. 2310. In Title 40 of the Code of Federal Regulations, Parts 81 to 85, revised as of July 1, 1996, Sec. 82.32 (e)(1) and (2) were incorrectly revised. The corrected text appears in the Federal Register. ♦

Testing Consent Order For Phenol Incorporates Agreement with Industry

Pursuant to section 4 of the Toxic Substances Control Act (TSCA), USEPA issued a testing consent order (Order) that incorporates an enforceable consent

agreement (ECA) with AlliedSignal Inc., Aristech Chemical Corporation, The Dow Chemical Company, Dakota Gasification Company, Georgia Gulf Corporation, General Electric Company, GIRSA, Inc., JLM Chemicals, Inc., Kalama Chemical, Inc., Merichem Company, Mitsubishi International Corporation, Mitsui Co. (U.S.A.), Inc., Shell Chemical Company, and Texaco Refining Marketing Inc. (collectively the Companies). The Companies have agreed to perform certain health effects tests on phenol (CAS No. 108-95-2). USEPA on January 17, 1997 at 62 Fed. Reg. 2607, summarized the ECA and added phenol to the list of chemicals subject to testing consent orders and hence subject to export notification requirements. ♦

New Source Performance Standards and Emissions Guidelines for Sewage Sludge Incinerators Coming

On January 14, 1997 at 62 Fed. Reg. 1868, USEPA provided notice of its intention to issue regulations and guidelines under Section 129 of the Clean Air Act for Sewage Sludge Incinerators (SSI) that combust sludge from Publicly Owned Treatment Works and to remove Sewage Sludge Incinerators from the list of Major Source Categories previously scheduled for rule development under Section 112 of the Clean Air Act. ♦

Financial Incentives for Using Voluntary Environmental Management Systems in State Water Programs

On January 21, 1997 at 62 Fed. Reg. 3036, the Office of Water at USEPA announced its intention to provide financial support, through a competitive grant process, for States that encourage and support the use of voluntary environmental management systems (EMS), using the ISO 14001 International Standard as a baseline, for facilities under State water programs in either delegated or non-delegated States. ♦

Annual SO₂ Allowances Auction Scheduled For Chicago Board of Trade March 24th

On January 24, 1997 at 62 Fed. Reg. 3681 USEPA announced its 1997 annual SO₂ allowances auction. The auction will take place at the Chicago Board of Trade on March 24, 1997. Bid forms must be received by March 18, 1997. ♦

USEPA Comfort Letter Policy-Brownfields

On January 30, 1997 at 62 Fed. Reg. 4623, released its policy on the issuance of comfort/status letters as part of its Brownfields program. The policy indicates when USEPA will issue a letter of comfort regarding its level of interest in a site under the Superfund program. The letters will be issued by the regional offices and disclose what information USEPA has on the site.

FINAL DE ISINS

95-156 Harris Marcus Group, Inc. v. EPA - The Board found that this Cook County facility is subject to certain of the volatile organic material emissions limitations of the air pollution control regulations applicable to metal furniture coating operations in the Chicago metropolitan area, rather than those applicable to miscellaneous metal parts and products coating operations. The Board denied a variance from the metal furniture coating emissions regulations and found that the effect of those rules was retroactively stayed up to the date of the Board order. The Board further granted a retroactive variance from certain volatile organic material emissions limitations of the air pollution control regulations applicable to wood furniture coating operations in the Chicago metropolitan area, subject to conditions.

97-29 Citizens Opposed to Additional Landfills and Harvey C. Pitt v. Greater Egypt Regional Environmental Complex a/k/a Gere Properties, Inc., and the Perry County Board of Commissioners - In this pollution control facility siting appeal involving a proposed Perry County facility (landfill), the Board found that the reviewing authority had jurisdiction to review the petition for siting authority, but did not address substantive issues relating to the manifest weight of the evidence because it found that the proceeding before the siting authority was fundamentally unfair due to *ex parte* contacts between the applicant and the authority. The Board reversed the siting approval and remanded the petition to the local authority for further hearings to make public the content of the contacts. Board Member J. Theodore Meyer dissented.

97-98 City of Belleville v. EPA - Upon receipt of an Agency recommendation, the Board granted this St.

The Illinois Environmental Protection Agency (IEPA) has proposed regulations for the Illinois Brownfields Program in docket R 97-11 Site Remediation Program. The regulations proposed by IEPA are presently pending before the Board. The Board held hearings on the proposed rules, and sent the rules to First Notice on February 6, 1997. ♦

Clair County facility a 45-day provisional variance facility from certain total suspended solids effluent discharge requirements of the water pollution control regulations, subject to conditions. Board Member Kathleen M. Hennessey abstained.

AC 97-30 County of Will v. James Henke - The Board entered a default order, finding that this Will County respondent had violated Section 21(p)(4) of the Act and ordering him to pay a civil penalty of \$500.

AC 97-31 County of Vermilion v. Emery Johnson - The Board entered a default order, finding that this Vermilion County respondent had violated Section 21(p)(1) of the Act and ordering him to pay a civil penalty of \$500.

AC 97-32 County of Will v. Vito Caprio - The Board entered a default order, finding that this Will County respondent had violated Sections 21(p)(1) and 21(p)(6) of the Act and ordering him to pay a civil penalty of \$1,000.

AC 97-33 County of Macon v. David Scott - The Board entered a default order, finding that this Macon County respondent had violated Section 21(p)(1) of the Act and ordering him to pay a civil penalty of \$500.

FINAL DE ISINS

96-184 J. M. Sweeney Company v. EPA - The Board granted this Lake County facility a variance from certain of the Stage II gasoline vapor recovery requirements of the air pollution control regulations applicable in the Chicago metropolitan area, subject to conditions.

97-34 Prairie Preservation Properties, Inc. and John Sexton Contractors Co. (Prairie/Lansing Landfill) v. EPA

- Having previously granted a request for an extension of time to file, the Board dismissed this reserved docket because no land permit appeal was timely filed on behalf of this Cook County facility.

97-39 City of Moline v. EPA - The Board granted the City of Moline a variance from certain excess infiltration, wastewater overflow, and overflow treatment and treatment plant bypass requirements of the water pollution control regulations, subject to conditions, in order to reinstate a former combined sewer overflow during investigation and correction of infiltration and inflow problems. Board Member J. Theodore Meyer dissented. Board Member Kathleen K. Hennessey abstained.

97-41 Cabot Corporation (Subpart F) v. EPA - Having previously granted a request for an extension of time to file, the Board dismissed this reserved docket because no land permit appeal was timely filed on behalf of this Douglas County facility.

97-42 Cabot Corporation (RCRA Permit) v. EPA - Having previously granted a request for an extension of time to file, the Board dismissed this reserved docket because no land permit appeal was timely filed on behalf of this Douglas County facility.

97-56 Grimm's Pharmacy v. EPA - Having previously granted a request for extension of time to file, the Board dismissed this reserved docket because no underground storage tank fund reimbursement determination appeal was timely filed on behalf of this Kane County facility.

97-57 Baldrige Drilling Co., Inc. v. EPA - Having previously granted a request for extension of time to file, the Board dismissed this reserved docket because no underground storage tank fund reimbursement determination appeal was timely filed on behalf of this Washington County facility.

97-61 Baldrige Drilling Co., Inc. v. EPA - Having previously granted a request for extension of time to file, the Board dismissed this reserved docket because no underground storage tank appeal was timely filed on behalf of this DuPage County facility.

97-79 Jane Graham and Kathy Creech v. City of Paris - The Board dismissed this citizens air enforcement action against an Edgar County respondent, finding that this complaint was frivolous because it failed to state a claim upon which the Board could grant relief.

97-106 CP Clare Corporation v. EPA - Upon receipt of an Agency recommendation, the Board granted a 30-day extension of the 90-day limitation on accumulation of hazardous waste at this Cook County facility.

97-108 United States Tobacco Manufacturing Co. v. EPA - Upon receipt of an Agency recommendation, the Board granted this Cook County facility a 4-day provisional variance from certain volatile organic material emission requirements of the air pollution control regulations applicable to "other emission units" located in the Chicago metropolitan area, subject to conditions, during maintenance of the facility's regenerative thermal oxidizer.

AC 97-34 EPA v. Fountain Valley Mobile Home Park and Fred Rosenberger - The Board entered a default order, finding that these Champaign County respondents had violated Sections 21(p)(1) and 21(p)(3) of the Act and ordering them to pay a civil penalty of \$1,000.

AC 97-35 County of Will v. Ferdinand J. Ambrosini - The Board entered a default order, finding that this Will County respondent had violated Sections 21(p)(1) and 21(p)(3) of the Act and ordering him to pay a civil penalty of \$1,000.

AC 97-36 County of LaSalle v. Four Star Marina, Inc. - The Board entered a default order, finding that this LaSalle County respondent had violated Section 21(p)(3) of the Act and ordering it to pay a civil penalty of \$500.

AC 97-38 EPA v. Willie Lightfoot - The Board granted voluntary withdrawal of this administrative citation against a Mercer County facility.

R94-1(B) In the Matter of: Triennial Water Quality Review: Amendments to 35 Ill. Adm. Code 302.202, 302.212, 302.213, 304.122 and 304.301 (Ammonia Nitrogen) - The Board adopted amendments to the water quality regulations that revised the effluent standards for ammonia nitrogen and established regulations for "effluent modified waters". Board Member Kathleen K. Hennessey abstained. - *See Rulemaking Update.*

FINAL DE ISINS

95-50 Palos Kar Wash Professional, Inc. v. EPA - The Board granted voluntary dismissal of this underground storage tank appeal involving a Cook County facility.

96-126 People of the State of Illinois v. Bennett Industries, Inc., an Illinois corporation - The Board

accepted a stipulation and settlement agreement in this air enforcement action against a Will County facility, ordered the respondent to pay a civil penalty of \$30,000, and ordered it to cease and desist from further violation.

96-157 People of the State of Illinois v. City of Toluca, a municipal corporation - The Board accepted a stipulation and settlement agreement in this water enforcement action against a Marshall County facility, ordered the respondent to pay a civil penalty of \$1,500, and ordered it to cease and desist from further violation. Board Member Kathleen K. Hennessey abstained.

96-235 People of the State of Illinois v. Medalist, Inc., a Delaware corporation - The Board accepted a stipulation and settlement agreement in this air and land enforcement action against a DuPage County facility, ordered the respondent to pay a civil penalty of \$8,000, and ordered it to cease and desist from further violation.

97-82 General Motors Corporation v. EPA - Having previously granted a request for an extension of time to file, the Board dismissed this reserved docket because no underground storage tank appeal was timely filed on behalf of this DuPage County facility.

97-83 Laidlaw Waste Systems, Inc. v. EPA - Having previously granted a request for an extension of time to file, the Board dismissed this reserved docket because no land permit appeal was timely filed on behalf of this St. Clair County facility.

97-118 Rock River Water Reclamation District v. EPA - Upon receipt of an Agency recommendation, the Board granted this Winnebago facility a 39-day provisional variance from certain of the ammonia nitrogen, five-day carbonaceous biochemical oxygen (CBOD₅) demand and total suspended solids (TSS) effluent requirements of the water pollution control regulations during modification of the treatment plant. Board Member Kathleen K. Hennessey abstained.

AC 97-39 EPA v. Gale E. Wilhelms and Linda Wilhelms - The Board entered a default order, finding that these Stephenson County respondents had violated Sections 21(p)(1) and 21(p)(4) of the Act and ordering them to pay a civil penalty of \$1,000.

AC 97-40 County of Will v. Arthur Burchett - The Board on its own motion dismissed this administrative citation involving a Will County facility for failure to complete service within 60 days, as required by Section 31.1(b) of the Act.

R96-3 In the Matter of: Steel and Foundry Industry Waste Landfills: Amendments to 35 Ill. Adm. Code 817.309 (Facility Location for Landfills Accepting Potentially Usable Waste) - The Board adopted amendments to the steel and foundry industry landfill regulations. The amendments allow an exception to the location requirements for landfills receiving potentially usable waste. The exception from certain separation requirements would allow the location of a landfill receiving potentially usable steel and foundry waste in the vicinity of a Class I or Class III groundwater upon a showing that the facility will not impact the groundwater.

R96-3 In the Matter of: Steel and Foundry Industry Waste Landfills: Amendments to 35 Ill. Adm. Code 817.309 (Facility Location for Landfills Accepting Potentially Usable Waste) - *See Rulemaking Update.*

FINAL DE ISIS

95-163 People of the State of Illinois v. Clark Refining & Marketing, Inc. - The Board accepted a stipulation and settlement agreement in this air, water, and RCRA Subtitle C enforcement action against a Madison County facility, ordered the respondent to pay a civil penalty of \$232,800, and ordered the respondent to cease and desist from further violation. Board Member Kathleen K. Hennessey abstained.

96-264 People of the State of Illinois v. American Waste Processing, Ltd. - The Board granted involuntary dismissal of the complaint in this RCRA Subtitle C enforcement action against a Cook County facility.

97-35 Illinois Power Company (Unit 2 - Baldwin Power Station) v. EPA - The Board granted summary judgment in favor of the petitioner and remanded this air permit appeal to the Agency. (Consolidated with PCB 97-36.)

97-36 Illinois Power Company (Unit 2 - Baldwin Power Station) v. EPA - The Board granted summary judgment in favor of the petitioner and remanded this air permit appeal to the Agency. (Consolidated with PCB 97-35.)

97-68 Senator William Shaw, Ronnie Lewis, Judith Evans v. Board of Trustees of the Village of Dolton, Illinois, Land and Lakes Company and Mayor Donald Hart - The Board found that the local siting authority's decision granting local siting approval for a proposed Cook County pollution control facility (landfill) was not

against the manifest weight of the evidence and affirmed the local that approval. Board Member M. McFawn concurred.

97-78 DeKalb Sanitary District v. EPA - The Board granted this DeKalb County facility a variance from certain carbonaceous biochemical oxygen and total suspended solids effluent discharge requirements of the water pollution control regulations, subject to conditions. Board Member Kathleen K. Hennessey abstained.

97-85 People of the State of Illinois v. East Riverdale Gravel Company - The Board accepted a stipulation and settlement agreement in this mine and water enforcement action against a McHenry County facility, ordered the respondent to pay a civil penalty of \$2,500, and ordered it to cease and desist from further violation. Board Member Kathleen K. Hennessey abstained.

97-107 People of the State of Illinois v. Atwood Industries, Inc. - The Board accepted a stipulation and settlement agreement in this EPRCA enforcement action against a Winnebago County facility, ordered the respondent to pay a civil penalty of \$8,600, and ordered it to cease and desist from further violation.

97-123 Illinois Power Company (Baldwin Power Station) v. EPA - Upon receipt of an Agency recommendation, the Board granted this Randolph County facility a 45-day provisional variance, subject to conditions, from certain total suspended solids effluent discharge requirements of the water pollution control regulations during repairs of the petitioner's wastewater treatment plant. Board Member Kathleen K. Hennessey abstained.

AC 97-22 County of Will v. Citiwaste Inc., and Allied Waste Industries - The Board granted voluntary dismissal of this administrative citation against a Will County facility.

AC 97-42 EPA v. Sharon Tondina - The Board entered a default order, finding that this Iroquois County respondent had violated Section 21(p)(1) of the Act and ordering her to pay a civil penalty of \$500.

AC 97-43 County of Jackson v. James Qualls - The Board entered a default order, finding that this Jackson County respondent had violated Sections 21(p)(1), 21(p)(2) and 21(p)(5) of the Act and ordering him to pay a civil penalty of \$1,500.

NEASES

97-76 Regent Investment Corporation v. EPA - The Board accepted this underground storage tank appeal involving a Cook County facility for hearing.

97-91 Land and Lakes Company v. EPA - The Board accepted this request for an extension of time to file a land permit appeal on behalf of a Will County facility.

97-92 People of the State of Illinois v. Victor G. Heurman - The Board received this water enforcement action against a Peoria County facility for hearing.

97-93 People of the State of Illinois v. Ashland, Inc. - The Board received this air enforcement action against a Cook County facility for hearing.

97-94 Jerry Austman and Theresa Strahm v. Amoco Oil Company - The Board held this citizen's underground storage tank enforcement action against a Livingston County facility for a frivolous and duplicitous determination.

97-95 People of the State of Illinois v. City of Sterling - The Board received this air and land enforcement action against a Whiteside County facility for hearing.

97-96 Shell Oil Company v. EPA - The Board accepted this underground storage tank appeal involving a DuPage County facility for hearing.

97-97 OK Service Center v. EPA - The Board accepted this request for an extension of time to file a underground storage tank appeal on behalf of a Cook County facility.

97-98 City of Belleville v. EPA - *See Final Actions.*

AC 97-43 County of Jackson v. James Qualls - The Board received an administrative citation against a Jackson County respondent.

NEASES

97-99 Shell Oil Company v. EPA - The Board accepted this waterwell setback exception appeal involving a Cook County facility for hearing.

97-100 Farmers State Bank, Pittsfield, Illinois v. Phillips Petroleum Company - The Board held this citizen's land

and water enforcement action against a Pike County facility for a frivolous and duplicitous determination.

97-101 People of the State of Illinois v. Louis Berkman Company - The Board received this air enforcement action against a Ogle County facility for hearing.

97-102 Borden Chemicals and Plastics Operating Limited Partnership v. EPA - The Board held this petition on behalf of a Sangamon County facility for a declaration that certain thermal stream water quality requirements of the water pollution control regulations do not apply to its discharges and a variance from certain other thermal stream water quality requirements for the Agency recommendation.

97-103 People of the State of Illinois v. State Oil Company, William Anest, individually, f/d/b/a S & S Petroleum Products, Peter Anest, individually, f/d/b/a S & S Petroleum Products, Charles Abraham, Josephine Abraham, and Milstream Service, Inc. - The Board received this land and water enforcement action against a McHenry County facility for hearing.

97-105 Continental Waste Industries of Illinois, Inc. v. EPA - The Board accepted this underground storage tank appeal involving a Coles County facility for hearing.

97-106 CP Clare Corporation v. EPA - *See Final Actions.*

97-107 People of the State of Illinois v. Atwood Industries, Inc. - Upon receipt of a proposed stipulation and settlement agreement and an agreed motion to request relief from the hearing requirement in this EPCRA enforcement action against a Winnebago County facility, the Board ordered publication of the required newspaper notice.

97-108 United States Tobacco Manufacturing Co. v. EPA - *See Final Actions.*

97-109 Covelli's A-1 Service 76 v. EPA - The Board accepted this request for an extension of time to file a underground storage tank appeal on behalf of a Kane County facility.

R97-17 Exemptions from Definitions of VOM, USEPA Amendments (July 1, 1996 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the definition of volatile organic material that USEPA may have adopted in the period

July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-18 SDWA Update, USEPA Regulations (July 1 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the Safe Drinking Water Act regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-19 UIC Update, USEPA Regulations (July 1 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the underground injection control regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-20 RCRA Subtitle D Update, USEPA Regulations (July 1 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the RCRA Subtitle D non-hazardous municipal solid waste landfill regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-21 RCRA Subtitle C Update, USEPA Regulations (July 1, 1996 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the RCRA Subtitle C hazardous waste management regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-22 UST Update, USEPA Regulations (July 1, 1996 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the RCRA Subtitle I underground storage tank regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

R97-23 Wastewater Pretreatment Update, USEPA Regulations (July 1, 1996 through December 31, 1996) - The Board reserved this routine docket for any identical-in-substance updates to the Clean Water Act wastewater pretreatment regulations that USEPA may have adopted in the period July 1 through December 31, 1996. - *See Rulemaking Update.*

NEASES

97-86 IMC AgriBusiness (formerly New Baden/Vigoro Industries) v. EPA - The Board accepted this underground storage tank appeal on behalf of a Clinton County facility for hearing.

97-88 Laidlaw Waste Systems, Inc. v. EPA - The Board accepted this land permit appeal on behalf of a Coles County facility for hearing.

97-104 Continental Waste Industries of Illinois, Inc. v. EPA - The Board accepted this request for an extension of time to file a land permit appeal on behalf of this Jefferson County facility.

97-110 People of the State of Illinois v. Meto-Graphics, Inc. - The Board received this RCRA Subtitle C enforcement action against a McHenry County facility for hearing.

97-111 People of the State of Illinois v. John Prior and Industrial Salvage, Inc. - The Board received this land and groundwater enforcement action against a Marion County facility for hearing.

97-112 OK Service Center v. EPA - The Board accepted this request for an extension of time to file a underground storage tank appeal on behalf of a Cook County facility.

97-113 People of the State of Illinois v. Homin Lee d/b/a Meisel Plating - The Board received this RCRA Subtitle C enforcement action against a Cook County facility for hearing.

97-114 Clow Company v EPA - The Board accepted this request for an extension of time to file a underground storage tank appeal on behalf of a DuPage County facility.

97-115 People of the State of Illinois v. Citizens Utilities Company of Illinois - The Board received this water enforcement action against a Kane County facility for hearing.

97-116 People of the State of Illinois v. Dixon-Marquette Cement, Inc. - The Board received this water enforcement action against a Lee County facility for hearing.

97-117 People of the State of Illinois v. United Scrap Metal, Inc. - The Board received this RCRA Subtitle C

enforcement action against a Cook County facility for hearing.

97-118 Rock River Water Reclamation District v. EPA - *See Final Actions.*

97-119 People of the State of Illinois v. G & M Total, Inc. and George Papas, individually and as President of G & M Total, Inc. - The Board received this underground storage tank enforcement action against a Lake County facility for hearing.

AC 97-44 EPA v. Tazewell Recycling and Disposal Facility - The Board received an administrative citation against a Tazewell County respondent.

AC 97-45 County of Vermilion v. Elvis Ford - The Board received an administrative citation against a LaSalle County respondent.

AC 97-46 County of LaSalle v. Ace Auto Salvage, Inc. - The Board received an administrative citation against a LaSalle County respondent.

NEASES

97-97 OK Service v. EPA - The Board accepted this underground storage tank fund reimbursement determination appeal on behalf of a Cook County facility for hearing.

DIVISION OF WATER POLLUTION CONTROL
RESTRICTED STATUS LIST

In order to comply with 35 Illinois Administrative Code Section 306.401 Illinois Pollution Control Board Regulations, the Illinois EPA has prepared the following list of facilities which are on Restricted Status. Restricted Status is defined as the Agency determination that a sewer or lift station has reached hydraulic capacity or that a sewage treatment plant has reached design capacity, such that additional sewer connection permits may no longer be issued without causing a violation of the Act or Regulations. Please note that the list is continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact this Agency for a final determination. This listing reflects the status as of December 31, 1996.

Facility names followed by an asterisk (*) indicates that construction is underway to ultimately alleviate problems which resulted in imposition of Restricted Status. Facilities followed by a double asterisk (**) are additions to the list.

CRITICAL REVIEW LIST

In order to comply with 35 Illinois Administrative Code Section 306.401, Illinois Pollution Control Board Regulations, the Illinois Environmental Protection Agency has prepared the following list of facilities which are on Critical Review. Critical Review as defined as the Agency determination that a sewer or lift station is approaching hydraulic capacity or that a sewage treatment plant is approaching design capacity such that additional sewer connection permit applications will require close scrutiny to determine whether issuance would result in a violation of the Act or Regulations. Please note that these lists are continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact the Agency for a final determination. This listing reflects the status as of December 31, 1996.

Facility names followed by a double asterisk are additions to the list.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Restricted Status List -- Public Water Supplies

The Restricted Status List was developed to give additional notification to officials of public water supplies which are in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

The Restricted Status List will include all Public Water Supplies for which the Agency has information indicating a violation of any of the following requirements: Finished water quality requirements of 35 Ill. Adm. Code, Part 604, Subparts B and C; maintenance of adequate pressure on all parts of the distribution system under all conditions of demand; meeting raw water quantity requirements of 35 Ill. Adm. Code 604.502; or maintenance of treatment facilities capable of providing water "assuredly adequate in quantity" as required by Section 18 of the Illinois Environmental Protection Act.

A public water supply on the Restricted Status List will not be issued permits for water main extensions, except for certain limited situations, or unless the supply has been granted a variance from the Illinois Pollution Control Board for the violation, or from permit issuance requirements of Section 39 of the Act.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of January 1, 1997.

* Indicates public water supplies which have been added to the list since the previous publication.

** Indicates actions are being taken by officials to bring the public water supply into compliance.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Critical Review List -- Public Water Supplies

The Critical Review List was developed to give additional notification to officials of public water supplies which may be close to being in violation of 35 Ill. Adm Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

A supply will be placed on the Critical Review List when Agency records indicate that it is approaching any of the violations which would place it on the Restricted Status List.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of January 1, 1997.

* Indicates public water supplies which have been added to the list since the previous publication.

** Indicates actions are being taken by officials to bring the public water supply into compliance.
