ILLINOIS POLLUTION CONTROL BOARD March 28, 1972

ENVIRONMENTAL PROTECTION AGENCY)
V.) # 71-319)
HOLLAND ICE CREAM & CUSTARD CO.)

Opinion & Order of the Board on Request for Extension (by Mr. Currie):

Our order of February 3, 1972 found that Holland had violated certain provisions respecting the discharge of wastewater and ordered the company to submit a program by March 1 for achieving compliance. At that time the company's preference, if feasible, was to connect to municipal sewers tributary to a treatment plant.

On February 25 Holland reported its progress in seeking a solution, including its conclusion that the municipal connection cannot be confidently predicted at this time and therefore that it must proceed to construct its own additional treatment facilities. A preliminary engineering study has been made, and Holland asks an extension of 60 days in which to complete development of the control program. The Agency recommends that this extension be granted, and we agree. The company has been working diligently to correct its problems since the entry of our initial order, and has been forced to abandon its original plan of connecting to the city sewer. The additional two months are necessary to permit the details of the program to be worked out and a permit applied for. We read the company's February 24 request as a commitment to construct as rapidly as is practicable facilities adequate to bring discharges into full compliance.

ORDER

Paragraph 3 of the Board's order of February 3, 1972, is hereby amended by substituting "April 30, 1972" for "March 1, 1972" with respect to the date for submission of the required compliance program. Such program shall be submitted to the Agency as well as to the Board, and shall be accompanied by an application for a permit to construct the proposed facilities.

In all other respects the order of February 3, 1972, shall remain in full force and effect.

I, Christan Moffett, Clerk of the Pollution Control Board certify that the Board adopted the above Opinion & Order on Request for Extension this 28th day of March, 1972 by a vote of 5-0.
