Opinion & Order of the Board (by Mr. Currie):

Chesterfield seeks a variance to permit connection of a single-family home to be constructed in Highland Park to a sewer serving the Clavey Road sewage treatment plant of the North Shore Sanitary District, despite the connection ban imposed in #70-7, League of Women Voters v. NSSD (March 31, 1972).

In # 71-343, NSSD v. EPA (as revised March 2, 1972), we have granted the District a blanket variance on the basis of treatment plant improvements that allows up to 5000 new connections to be made at Clavey Road and at Waukegan. The petitioner is free to apply to the District for a permit under that decision. In the absence of showing that such an application has been denied the present petition is moot and is therefore dismissed.

I, Christan Moffett, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion & Order this 2nd day of March, 1972, by a vote of 4-0.
