ENVIRONMENTAL PROTECTION AGENCY)

PCB 73-196

ORDER OF THE BOARD (by Mr. Dumelle)

These requests to use copper sulfate to control algae should list resulting copper concentrations in the drinking water, the frequency of dosage, the period of dosage, the reasons why bio-degradable algicides cannot be used and the presence or absence of fish life in the reservoir.

Petitioners should provide this information within 30 days and should waive the time period for decisions by the Board for an equal amount of time. The Agency is asked to provide petitioners with past Board opinions on this subject as a guide (City of LaHarpe, et al, PCB 72-168, August 8, 1972 and City of Paris, et al, PCB 72-277, August 15, 1972).

It is the intention of the Board to decide these cases without a public hearing.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 10th day of May, 1973 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
