**ILLINOIS EPA’S MOTION FOR EXTENSION OF TIME**

NOW COMES the Illinois Environmental Protection Agency (Illinois EPA or Agency), by and through one of its attorneys, and submits the following with respect to its Motion for an Extension of Time.

1. This proceeding involves approximately 49 Petitioners who are seeking a watershed time-limited water quality standard (TLWQS) for chlorides from the Illinois Pollution Control Board (Board). Initially, in 2015, sixteen Petitioners had individually sought a variance from the recently adopted chloride water quality standard. The Board consolidated these petitions, and they were converted to TLWQS petitions by operation of law in February 2017.

2. Shortly thereafter, the Board established the following classes of dischargers that may be covered by the TLWQS: publicly owned treatment works (POTWs), communities with combined sewer overflow (CSO) outfalls, industrial sources; municipal separate storm sewer

systems (MS4s); Illinois Department of Transportation (IDOT) and Illinois Tollway discharges, and salt storage facilities. Village of Homewood, PCB 16-14 (cons.) slip op. at 2 (April 12, 2017). The class of dischargers includes those that discharge into the Des Plaines River watershed from the Kankakee River to the Will County Line (except for the DuPage River watershed) and the Chicago Area Waterways System watershed (except the North Branch Chicago River watershed upstream of the North Shore Channel and those portions of the watershed located in Indiana). Homewood, PCB 16-14 (cons.) slip op. at 2 (June 8, 2017).

3. The Board determined that the previously filed petitions for a variance were not in substantial compliance with the requirements for TLWQS. Homewood, PCB 16-14 (cons.) slip op. at 3 (June 8, 2017). The Board granted those 16 Petitioners and any other member of the discharger classes until July 26, 2018, to file an amended petition. *Id.* Approximately thirty-three other Petitioners have joined in seeking a watershed TLWQS.

4. The amended petition in this TLWQS proceeding, filed on July 24, 2018, consists of two components: the Joint Submittal in Support of Petition for Chloride Time Limited Water Quality Standard for the Defined Chicago Area Water System/Des Plaines River Watershed (Joint Petition), and individual submittals for all 49 petitioners that include discharger specific information.

5. On December 20, 2018, the Board found the Joint Petition to be in substantial compliance. *See* PCB 16-14 at 5, December 20, 2018.

6. The Petitioners are seeking a watershed TLWQS from the Board's chloride water quality standard in 35 Ill. Adm. Code 302.407(g)(3) within the Lower Des Plaines River (LDPR) watershed and portions of the Chicago Area Waterway System (CAWS) watershed. The Board established the chlorides water quality standard at issue here pursuant Section 303 of the federal

Clean Water Act (CWA), 33 USC §1251(a)(2), which requires states to adopt water quality standards that include designated uses and the criteria to protect such uses. 40 CFR §131.2 (2018). The water quality criteria “represents the conditions (e.g. concentrations of particular chemicals, levels of certain parameters) sufficient to restore and maintain the chemical, physical, and biological integrity of the water bodies and protect applicable designated uses.” Water Quality Standards Handbook: Second Edition, Chapter 3: Water Quality Criteria, p.1 (EPA-823-B-17-001). The chlorides water quality standard at issue in this petition is 500 mg/l. J. Sub. at 1.3; *See* 35 Ill. Adm. Code 302.407(g)(3).

7. Post hearing comments were due in this matter on April 21, 2020 and replies to those comments are due on June 5, 2020.

8. All participants timely filed comments with the Board on April 21, 2020. Based on those comments, the participants are continuing to discuss issues raised from the April 21, 2020 filings.

9. On June 1, 2020, the Agency filed for an extension of time requesting the deadline file their replies be extended to July 8, 2020. The hearing officer granted the said Motion on June 2, 2020.

10. Since the filing of that Motion, participants are still engaged in discussions and the Agency is also having discussion with USEPA Region V.

11. The participants believe that continued discussions may result in agreements and clarifications that will expedite and focus the Board’s consideration of the TLWQS .

12. Participants have agreed that because of these ongoing discussions reply briefs should now be due on August 21, 2020.

13. Participants have informed the Agency they do not object to extending the reply

deadline to August 21, 2020. Therefore, there would be no prejudice is allowing this extension.

WHEREFORE, the Agency respectfully requests the Board to grant its Motion for an Extension of Time to file reply briefs until August 21, 2020.

Respectfully submitted,

ILLINOIS ENVIRONMENTAL PROTECTION  
AGENCY
