Re: Public Comment in **Support** of Illinois Power Holdings' Petition, Docket No. 2014-010 (Air-Variance)

Dear Honorable Members of the Illinois Pollution Control Board,

As a vendor of Dynegy, Hayes Mechanical and its employees depend upon the Illinois power generation industry for our livelihood. Unfortunately, the industry has been hard hit by the national economic crisis and market conditions, particularly here in Illinois. As an employer, I am writing to share my support for approval of the above mentioned variance request by Illinois Power Holdings (IPH), a Dynegy subsidiary.

Dynegy has stepped up to help support much-needed union jobs and economic activity in Illinois through the proposed sale of Ameren Energy Resources (AER) to IPH. With this transaction, Dynegy plans to double its operations and investment in Illinois as a responsible neighbor and major employer of union jobs.

In September 2012, the Illinois Pollution Control Board granted AER's variance request, recognizing both the environmental and economic benefits of doing so. IPH is seeking similar relief and is committed to complying with the compliance conditions previously imposed by the Board. As a closing condition under the transaction agreement, if this petition for temporary relief is not granted these environmental and economic benefits will be at risk.

AER and Dynegy are important economic engines for the state of Illinois and our local communities, especially in economically challenged Central and Southern Illinois. On behalf of Hayes Mechanical, which has provided jobs and paid taxes in Illinois for over 90 years, I urge the Board to improve air quality and support much-needed Illinois jobs and economic activity by granting IPH's petition for the requested temporary relief.

Sincerely,

George Englebrecht
Chief Operating Officer
Hayes Mechanical
