No person shall:

- a) Cause or threaten or allow the discharge or emission of any contaminant into the environment in any State so as to cause or tend to cause air pollution in Illinois, either alone or in combination with contaminants from other sources, or so as to violate regulations or standards adopted by the Board under this Act.

The owner or operator of any emission unit or air pollution control equipment meeting the applicability criteria contained in 35 Ill. Adm. Code 254.102 shall submit to the Agency as a minimum, annual reports detailing the nature, specific emission units and total annual quantities of all specified air contaminant emissions; provided, however, that the Agency may require more frequent reports when necessary to accomplish the purposes of the Act and this Chapter.

(a) Subpart B of this Part applies to:

* * *

- (3) Owners and operators of sources in ozone nonattainment areas that have a potential to emit 25 tons per year or more of either VOM or NO_x from all emission units.

15. DuPage County is designated as a marginal nonattainment area for ozone, and the Facility has the potential to emit 100 tons per year of VOM, thereby meeting the applicability criteria of Section 254.102(a)(3) of the Illinois Air Pollution Regulations, 35 Ill. Admin. Code 254.102(a)(3).

16. Section 254.132(a) of the Illinois EPA Air Pollution Regulations, 35 Ill. Adm. Code 254.132(a), provides as follows:

Failure to file a complete Annual Emissions Report by the applicable deadlines prescribed in Section 254.137(a) of this Subpart shall be a violation of this Part and 35 Ill. Adm. Code 201.302(a).

211.6370, provides the following definition:

“Stationary source” means any building, structure, facility or installation that emits or may emit any air pollutant.

22. Section 211.370 of the Board Air Pollution Regulations, 35 Ill. Adm. Code

211.370, provides the following definition:

“Air pollutant” means an air pollution agent or combination of such agents, including any physical, chemical, biological, radioactive (including source material, special nuclear material, and byproduct material) substance or matter which is emitted into or otherwise enters the atmosphere. Such term includes any precursors to the formation of any air pollutant, to the extent that the relevant statute or rule has identified such precursor or precursors for particular purpose for which the term “air pollutant” is used.

23. The Facility is a “stationary source” comprised of “emission units” that emit “air pollutants” as those terms are defined in Sections 211.6370, 211.1950, and 211.370, respectively, of the Board Air Pollution Regulations, 35 Ill. Adm. Code 211.6370, 211.1950, and 211.370.

Code 254.132(a) and 254.137(a), to submit by May 1, 2019, an Annual Emissions Report (“AER”) to the Illinois EPA for its operations during calendar year 2018.

25. Respondent failed to submit its AER for calendar year 2018 to Illinois EPA by May 1, 2019.

STIPULATION AND PROPOSAL FOR SETTLEMENT

Complainant, PEOPLE OF THE STATE OF ILLINOIS, by KWAME RAOUL, Attorney General of the State of Illinois, the ILLINOIS ENVIRONMENTAL PROTECTION AGENCY (“Illinois EPA”), and TFC GROUP, LLC. (“TFC Group” or “Respondent”), (collectively “Parties to the Stipulation”), have agreed to the making of this Stipulation and Proposal for Settlement (“Stipulation”) and submit it to the Illinois Pollution Control Board (“Board”) for approval. This stipulation of facts is made and agreed upon for purposes of settlement only and as a factual basis for the Board’s approval of this Stipulation and issuance of relief. None of the facts stipulated herein shall be introduced into evidence in any other proceeding regarding the violations of the Illinois Environmental Protection Act (“Act”), 415 ILCS 5/1, et seq. (2018), the Board’s regulations, and Illinois EPA’s regulations, alleged in the Complaint except as otherwise provided herein. It is the intent of the Parties to the Stipulation that it be a final adjudication of this matter.

I. STATEMENT OF FACTS

A. Parties

1. On July 15, 2020, a Complaint was filed on behalf of the People of the State of Illinois by Kwame Raoul, Attorney General of the State of Illinois, on his own motion and upon the request of the Illinois EPA, pursuant to Section 31 of the Act, 415 ILCS 5/31(2018), against the Respondent.

2. The Illinois EPA is an administrative agency of the State of Illinois, created pursuant to Section 4 of the Act, 415 ILCS 5/4 (2018).

3. At all times relevant to this Complaint, Respondent was and is an Illinois limited liability corporation registered with the Illinois Secretary of State.

4. Respondent also conducts its business under the name The Finishing Company. According to The Finishing Company's website, The Finishing Company is a TFC Group, LLC company engaged in the business of coating and electroplating finishes.

5. Respondent operates a coating and electroplating facility located at 136 Commercial Avenue, Addison, DuPage County, Illinois ("Facility").

6. At the Facility, Respondent operates two (2) batch liquid paint booths, three (3) conveyor liquid paint booths, six (6) silk screening stations, three (3) powder coating booths, two (2) nickel and chrome plating lines, two (2) batch ovens, one (1) drying oven, one (1) aqueous parts washer, one (1) curing oven, and solvent cleanup operations. The Facility's processes are capable of releasing particulate matter ("PM"), particulate matter < 10 microns ("PM10"), sulfuric acid ("H₂SO₄"), and volatile organic matter ("VOM") to the atmosphere.

7. On September 19, 2017, Illinois EPA issued Respondent a Construction Permit ("Air Permit") for new emissions units at the Facility. Air Permit Special Condition 1c. authorizes

Respondent to operate emissions units and/or air pollution control equipment consisting of two (2) batch liquid paint booths, three (3) conveyor liquid paint booths, six (6) silk screening stations, and three (3) powder coating booths under the Air Permit for twelve months after the date of the initial startup. The remaining emissions units at the Facility are also authorized to operate until a Federally Enforceable State Operating Permit is issued pursuant to Section 39.5 of the Act. Respondent was required to submit an Annual Emissions Report (“AER”) for each year of operation.

8. Respondent was required to submit an AER for calendar year 2018 to the Illinois EPA no later than May 1, 2019.

9. Respondent submitted its AER for calendar year 2018 on June 8, 2020, more than 13 months late.

B. Allegations of Non-Compliance

Complainant contends that the Respondent has violated the following provisions of the Act and Board regulations and Illinois EPA regulations:

Count I: Failure to submit a complete and accurate 2018 Annual Emissions Report in violation of Section 9(a) of the Illinois Environmental Protection Act, 415 ILCS 5/9(a) (2018), Section 201.302(a) of the Board Air Pollution Regulations, 35 Ill. Adm. Code 201.302(a), and Sections 254.132(a) and 254.137(a) of the Illinois EPA Air Pollution Regulations 35 Ill. Admin. Code 254.132(a) and 254.137(a).

C. Non-Admission of Violations

The Respondent neither admits nor denies the violations alleged in the Complaint filed in this matter and referenced herein.

D. Compliance Activities to Date

Respondent submitted its calendar year 2018 AER to Illinois EPA on June 8, 2020.

II. APPLICABILITY

This Stipulation shall apply to and be binding upon the Parties to the Stipulation. The Respondent shall not raise as a defense to any enforcement action taken pursuant to this Stipulation the failure of any of its officers, directors, agents, employees or successors or assigns to take such action as shall be required to comply with the provisions of this Stipulation. This Stipulation may be used against the Respondent in any subsequent enforcement action or permit proceeding as proof of a past adjudication of violation of the Act and the Board Regulations for all violations alleged in the Complaint in this matter, for purposes of Sections 39 and 42 of the Act, 415 ILCS 5/39 and 42 (2018).

III. IMPACT ON THE PUBLIC RESULTING FROM ALLEGED NON-COMPLIANCE

Section 33(c) of the Act, 415 ILCS 5/33(c) (2018), provides as follows:

In making its orders and determinations, the Board shall take into consideration all the facts and circumstances bearing upon the reasonableness of the emissions, discharges, or deposits involved including, but not limited to:

1. the character and degree of injury to, or interference with the protection of the health, general welfare and physical property of the people;
2. the social and economic value of the pollution source;
3. the suitability or unsuitability of the pollution source to the area in which it is located, including the question of priority of location in the area involved;
4. the technical practicability and economic reasonableness of reducing or eliminating the emissions, discharges or deposits resulting from such pollution source; and

5. any subsequent compliance.

In response to these factors, the Parties to the Stipulation state the following:

1. The Illinois EPA's information gathering responsibilities were hindered by the Respondent's violations thereby threatening human health and the environment.
2. There is social and economic benefit to the facility.
3. Operation of the facility was and is suitable for the area in which it is located.
4. Timely submitting Annual Emission Reports is both technically practicable and economically reasonable.
5. Respondent has subsequently complied with the Act and the Board and Illinois EPA regulations.

IV. CONSIDERATION OF SECTION 42(h) FACTORS

Section 42(h) of the Act, 415 ILCS 5/42(h) (2018), provides as follows:

In determining the appropriate civil penalty to be imposed under . . . this Section, the Board is authorized to consider any matters of record in mitigation or aggravation of penalty, including but not limited to the following factors:

1. the duration and gravity of the violation;
2. the presence or absence of due diligence on the part of the respondent in attempting to comply with requirements of this Act and regulations thereunder or to secure relief therefrom as provided by this Act;
3. any economic benefits accrued by the respondent because of delay in compliance with requirements, in which case the economic benefits shall be determined by the lowest cost alternative for achieving compliance;
4. the amount of monetary penalty which will serve to deter further violations by the respondent and to otherwise aid in enhancing voluntary compliance with this Act by the respondent and other persons similarly subject to the Act;
5. the number, proximity in time, and gravity of previously adjudicated violations of this Act by the respondent;

6. whether the respondent voluntarily self-disclosed, in accordance with subsection i of this Section, the non-compliance to the Agency;
7. whether the respondent has agreed to undertake a supplemental environmental project, which means an environmentally beneficial project that a respondent agrees to undertake in settlement of an enforcement action brought under this Act, but which the respondent is not otherwise legally required to perform; and
8. whether the respondent has successfully completed a Compliance Commitment Agreement under subsection (a) of Section 31 of this Act to remedy the violations that are the subject of the complaint.

In response to these factors, the Parties to the Stipulation state as follows:

1. The Respondent failed to timely submit its AER for calendar year 2018 because Respondent submitted its AER for calendar year 2018 in June of 2020, more than 13 months late.
2. Respondent was diligent in attempting to come back into compliance with the Act, and the Board and Illinois EPA regulations, once Complainant notified Respondent of its noncompliance.
3. Respondent gained no economic benefit as a result of its untimely AER submittal.
4. Complainant has determined, based upon the specific facts of this matter, that a penalty of Five Thousand dollars (\$5,000.00) will serve to deter further violations and aid in future voluntary compliance with the Act and the Board and Illinois EPA regulations.
5. To Complainant's knowledge, Respondent has no previously adjudicated violations of the Act.
6. Self-disclosure is not at issue in this matter.
7. The settlement of this matter does not include a supplemental environmental project.
8. A Compliance Commitment Agreement was not at issue in this matter.

V. TERMS OF SETTLEMENT

A. Penalty Payment

1. The Respondent shall pay a civil penalty in the sum of Five Thousand dollars (\$5,000.00) within thirty (30) days from the date the Board adopts and accepts this Stipulation.

B. Interest and Default

1. If the Respondent fails to make any payment required by this Stipulation on or before the date upon which the payment is due, the Respondent shall be in default and the remaining unpaid balance of the penalty, plus any accrued interest, shall be due and owing immediately. In the event of default, the Complainant shall be entitled to reasonable costs of collection, including reasonable attorney's fees.

2. Pursuant to Section 42(g) of the Act, interest shall accrue on any penalty amount owed by the Respondent not paid within the time prescribed herein. Interest on unpaid penalties shall begin to accrue from the date such are due and continue to accrue to the date full payment is received. Where partial payment is made on any penalty amount that is due, such partial payment shall be first applied to any interest on unpaid penalties then owing.

C. Payment Procedures

1. All payments required by this Stipulation shall be made by certified check or money order payable to the Illinois EPA for deposit into the Environmental Protection Trust Fund ("EPTF"). Payments shall be sent by first class mail and delivered to:

1021 North Grand Avenue East
P.O. Box 19276
Springfield, Illinois 62794-9276

2. The case name and case number shall appear on the face of the certified check or money order.

3. A copy of the certified check or money order and any transmittal letter shall be sent to:

Arlene R. Haas
Assistant Attorney General
Environmental Bureau
Illinois Attorney General's Office
69 W. Washington Street, Suite 1800

D. Future Compliance

1. Respondent shall timely file all future Annual Emission Reports.

2. In addition to any other authorities, the Illinois EPA, its employees and representatives, and the Attorney General, his employees and representatives, shall have the right of entry into and upon the Respondent's facility which is the subject of this Stipulation, at all reasonable times for the purposes of conducting inspections and evaluating compliance status. In conducting such inspections, the Illinois EPA, its employees and representatives, and the Attorney General, his employees and representatives, may take photographs, samples, and collect information, as they deem necessary.

3. This Stipulation in no way affects the responsibilities of the Respondent to comply with any other federal, state or local laws or regulations, including but not limited to the Act, the Board Regulations, and the Illinois EPA regulations.

4. The Respondent shall cease and desist from future violations of the Act, Board Regulations, and Illinois EPA Regulations that were the subject matter of the Complaint.

E. Release from Liability

In consideration of the Respondent's payment of the \$5,000.00 penalty, its commitment to cease and desist as contained in Section V.D.4 above, and upon the Board's approval of this Stipulation, the Complainant releases, waives and discharges the Respondent from any further liability or penalties for the violations of the Act and the Board and Illinois EPA regulations that were the subject matter of the Complaint herein. The release set forth above does not extend to any matters other than those expressly specified in Complainant's Complaint filed on July 15, 2020. The Complainant reserves, and this Stipulation is without prejudice to, all rights of the State of Illinois against the Respondent with respect to all other matters, including but not limited to, the following:

- a. criminal liability;
- b. liability for future violation of state, federal, local, and common laws and/or regulations;
- c. liability for natural resources damage arising out of the alleged violations; and
- d. liability or claims based on the Respondent's failure to satisfy the requirements of this Stipulation.

Nothing in this Stipulation is intended as a waiver, discharge, release, or covenant not to sue for any claim or cause of action, administrative or judicial, civil or criminal, past or future, in law or in equity, which the State of Illinois may have against any person, as defined by Section 3.315 of the Act, 415 ILCS 5/3.315, or entity other than the Respondent.

F. Enforcement of Stipulation

1. Upon the entry of the Board's Order approving and accepting this Stipulation, that Order is a binding and enforceable order of the Board and may be enforced as such through any and all available means.

G. Execution of Stipulation

The undersigned representatives for the Parties to the Stipulation certify that they are fully authorized by the party whom they represent to enter into the terms and conditions of this Stipulation and to legally bind them to it. This Stipulation may be executed by the parties in one or more counterparts, all of which taken together shall constitute one and the same instrument.
