Here is Charlotte's comment without the computer language. Thanks all!

I missed my chance to speak at the last hearing. I would like to share a quote from AARP's most recent Bulletin. "Autoimmune Diseases of the joints, glands and digestive system are rising at a steady 4 to 7 percent each year, Vojdani clinical immunologist and associate adjunct professor in the Department of Preventive Medicine at Loma Linda University says."

Heavy metals and industrial pollution are among the top offenders. Coal ash pond water leaching into our groundwater is a huge culprit full of heavy metals. The fact that most of these ponds are in Black and Brown communities is another example of Environmental Racism. As the matriarch of a black, brown and white interracial family, I am hoping you will work to make all neighborhoods safe for all people.

Sincerely,
Charlotte Droogan

No problem; Would it be possible to send a "cleaner" version. We actually do read through all the comments and stuff that comes in.

Hello,

I am forwarding a public comment regarding the Coal Ash Rulemaking process. Charlotte Droogan submitted a comment to donbrown instead of don.brown and received a notice her email was not delivered. Charlotte and I spoke on the phone and I said I would forward her comments to you.

Thank you very much,

Ann Baskerville
