Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

It is time to stand up for public health and require energy producers to modernize coal-fired power plants. Existing technology, when utilized, can make these power plants much less polluting. Public health should have priority over the short term profits of polluters.

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Sincerely,
