Illinois Pollution Control Board, cc: Dynegey CEO Robert Flexon

Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

I've signed other petitions to this effect, but I'll sign this one too, and sign others, and also call out the Illinois government on this on Facebook and other Internet venues. Corporate polluters have done far too much damage to our planet and our people- and what's worse is, they pass all the costs on to us while keeping profit for themselves. I say it's time to reverse that. Keep the costs with the companies where they belong. If their profits go down as a result of this, then **THAT'S JUST TOO BAD FOR THEM- THOSE PROFITS WERE UNDESERVED IN THE FIRST PLACE.**

Colluding with corporate criminals against customers and the public is unacceptable. If you proceed with giving them this pass, know that it will **NEVER** go away- we will neither forget nor forgive it. Your reputation will be stained forever.

Sincerely,
Brian Waak

Aug 21, 2013

Illinois Pollution Control Board, cc: Dynegy CEO Robert Flexon

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Five more years of this pollution can negatively affect many people's lives and health. Life is priceless. These companies need to update their facilities now or close until they can. I know people would lose their jobs if they were closed but we all only have one life to live and one body to live it with. Hopefully, they would be willing to update them and no one would lose their job. Would they want their family members to live in a community with all that air pollution?!

Sincerely,
Mary Slade

Illinois Pollution Control Board, cc: Dynegy CEO Robert Flexon

Subject: Dynegy and Illinois coal plants

Dear Illinois Pollution Control Board,

Dear Mr. Governor:

I understand that you are considering allowing a number of coal plants in Illinois continue to evade pollution laws and operate without adequate pollution controls.

This is wrong and bad for our state. Please use your power and position and reject PCB 2014-010.

For these coal plants to install clean-air updates may make our energy costs higher, but it is the price that we must pay for health. Who knows, maybe we will even start using less energy -- which is something that must happen anyhow.

Sincerely,
Joyce Haworth

Aug 21, 2013

Illinois Pollution Control Board, cc: Dynegey CEO Robert Flexon

Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

The Edwards coal plant has been operating near Peoria for 52 years and does not have modern pollution controls. Pollution levels in the county where the plant operates were documented by EPA as the highest in the state.

Yet, in the next few weeks, the Illinois Pollution Control Board (IPCB) that is controlled by governor Quinn, is poised to give the plant's future owner a big fat permission slip to keep operating this out of date coal plant until 2020 without reducing its dangerous air pollution.

governor Quinn has prided himself on his environmental record. If this extension is approved, I will consider other options in the Democratic primary than governor Quinn.

Again, don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Sincerely,
Kelly Pierce

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

There have been Ozone Alerts 4 days in a row for seniors, children and people with breathing issues. This is unacceptable! We have to stop pollution before it stops us. Not only do we have to get off of energy that pollutes, we need to get off of fossil fuels for our vehicles that pollute. We need to change to electric/biofuel powered vehicles, not only private but public as well. Many states have already taken this initiative. I want my grandchildren to be able to let their children enjoy the outdoors and play like they are able to as children now. Everyone has to think into the future or there will be no SAFE future for anyone!

Illinois Pollution Control Board, cc: Dynegy CEO Robert Flexon

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years. We really need air that we can breathe.

Sincerely,
Barbara Keer

Subject: No Free Pass for Dynege to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years. Limits are there to protect the citizens of Illinois. I would hope that you would have the courage to protect your constituency against harmful toxins in the environment.

Sincerely,
Erin Sakakibara.

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

I have to breath the air here, no other choice.

As much as Ameren has run roughshod over their Customers in the past 6 yrs or so, make them upgrade all of their plants before they sell them. And Never sell out to Texas!

Sincerely,
Glenn Jones

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Both my adopted special-needs children suffered from asthma. Let's not propagate the conditions that will cause others to suffer.

Sincerely,
Wayne Johnson

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

If we are going to continue to rely on coal generated electricity, we need to require the plant operators to install modern pollution controls.

The air pollution limits are there for a reason. Please enforce them.

Sincerely,
Jacek Ziabicki

Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years. As, an automotive technician for more than 28 years, I have seen what air pollution, smells like, looks like, feels like and the consequences that we have to deal with and the price that we have to pay for lack of enforcing the existing laws as counties that have vehicle emissions testing do. It's time to enforce and uphold the laws and regulation that, We all have comply by. Let's clean up our air, not just for us, but for future generations and those to come. I truly believe that we need to leave the place we occupy on earth better than when we came to this world. I, hope that you, as the voice and has the power as a representative of the people that elected you into office will do what is just and the right thing. It's the right thing for the environment and the well being of all.

Sincerely
Alfredo Arceo Jr.
