An inspection of this address was conducted as part of a follow up for a 05-13-03 open fire, and illegal dumping complaint. Upon arrival I patrolled the general area, and assessed the site condition which remained unchanged since the previous visit.

The facility was cluttered with hundreds of wooden pallets in which 65% were accumulated in the workshop, and the rest were found stacked out side at different locations, and in trailers. The facility appeared abandoned and unprotected, and is easily accessible to the public from all angles.

I observed dumped discarded tires, auto parts, trucks, cars, and other debris coupled with several thousands of pallets. Also a small amount of ashes in (photo #1 and photo #2) is most likely from open burning. The prior report also has additional photos of ashes.

Site was referred to the Chicago Fire Department (South Area) for the fire hazard. Lt. Thomas, and Lt. Simmons were contacted on July 22 -2003 at 3:10PM. (747-7555).
