Dear Hearing Officer Therriault,

I oppose Dynegey's request for a variance from Illinois air quality standards. Dynegey has the financial wherewithal to purchase the plants and is doing so voluntarily, but still argues that the company would suffer an undue financial hardship if it was forced to comply with the law. The State should hold Dynegey to its legal and corporate environmental responsibility to clean up any of the coal plants it purchases from Ameren.

Sincerely,

Mr. Bill Theisen

Dynegey is not a company that should control so many power plants in Illinois. They'll file bankruptcy (again) at the drop of a hat, ruining pensions of employees. Illinois should let Ameren hike the rates just enough to keep the power plants in operation. Ameren is a much better employer.

Dynegey has already announced cuts nearing 30% of management employees. I'm betting they'll do the same to union employees once their contracts end. I'll take my chances with Ameren.
