1) Rulemaking: No docket presently reserved.

A) Description:

The IEPA is currently developing amendments for proposal to the Board, as part of a general clean-up of Part 218 and Part 219. This involves modifying and clarifying the Illinois ozone rules pertaining to: (1) lithographic printing; (2) perchlorethylene dry cleaners; (3) capture efficiency testing; (4) coating operations; (5) the general provisions involving “carbon adsorbers”; and (6) motor vehicle refinishing. Additionally, Appendix B of Parts 218 and 219 will be deleted. Further, the rulemaking will amend Part 211 as necessary to reflect the changes made to 35 Ill. Adm. Code Parts 218 and 219.

B) Statutory authority:

Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

E) Effect on small business, small municipalities, or not-for-profit corporation:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that emits volatile organic material. However, the IEPA anticipates that the amendments will have no new substantive impact on any sources, since the amendments will be a clean up of existing requirements.

Definitions and General Provisions (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R04-19

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R04-19 to accommodate any amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period July 1, 2003 through December 31, 2003. At this time, the Board is not aware of any federal amendments to the federal definition of VOM. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2004. The Board will then propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R04-19, as necessary and appropriate.

## POLLUTION CONTROL BOARD

### JANUARY 2004 REGULATORY AGENDA

Section 9.1(e) mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on July 1, 2003, the due date for Board adoption would be July 1, 2004.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2004, after which time the Board will propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be July 1, 2004, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early April 2004. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board would promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical

G) Related rulemakings and other pertinent information:

No other presently-known proceeding would affect provisions of Part 211.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

JANUARY 2004 REGULATORY AGENDA

1) Rulemaking: Docket number R04-18

A) Description:

Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] mandates that the Board update the Illinois wastewater pretreatment regulations to reflect revisions made to the federal wastewater pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R04-18 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that the USEPA may have made in the period July 1, 2003 through December 31, 2003. At this time, the Board is aware that USEPA undertook no actions that affected the text of 40 CFR 400 through 499 and its implementation. However, USEPA twice updated 40 CFR 136, which is incorporated by reference in the wastewater pretreatment rules. These actions are described below:

July 21, 2003 (68 Fed. Reg. 43272)	USEPA approved new methods for microbiological analysis of water and wastewater.
September 19, 2003 (68 Fed. Reg. 54934)	USEPA corrected its July 21, 2003 approval of new methods for microbiological analysis of water and wastewater.

The Board will verify the existence of any additional federal actions that may affect the text of 40 CFR 400 through 499 and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2004. The Board will then propose corresponding amendments to the Illinois SDWA regulations using the identical-in-substance procedure under docket R04-18, as necessary and appropriate.

Section 13.3 of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first action in the update period, that of July 21, 2003, the due date for Board adoption would be July 21, 2004.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2004, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. A) Description:

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] mandates that the Board update the Illinois SDWA regulations to reflect the USEPA amendments to the federal Safe Drinking Water Act (SDWA) primary drinking water regulations.

The Board has reserved docket number R04-13 to accommodate any amendments to the SDWA primary drinking water regulations, 40 CFR 141 through 143, that the United States Environmental Protection Agency (USEPA) may make in the period July 1, 2003 through December 31, 2003. (UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R04-14 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148, during the period July 1, 2003 through December 31, 2003. At this time, the Board is not aware of any federal amendments to the federal UIC regulations. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2004. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R04-14, as necessary and appropriate.

The Board will verify the existence of any additional federal actions that may affect the text of the federal UIC regulations and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2004. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure under docket R04-14, as necessary and appropriate.

Section 13(c) mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is the first day of the update period, on July 1, 2003, the due date for Board adoption of all amendments in the period would be July 1, 2004.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13(c) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13(c) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28]. No hearing is required in identical-in-substance proceedings.

The Board cannot project an exact date for publication at this time. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation in Illinois to the extent the affected entity engages in the underground injection of waste.

[MUNICIPAL WASTE] TRANSFER STATIONS (New Part)  
INFORMATION TO BE SUBMITTED IN A PERMIT APPLICATION FOR A  
[MUNICIPAL WASTE] TRANSFER STATION (New Part)  
PROCEDURAL REQUIREMENTS FOR [MUNICIPAL WASTE] TRANSFER  
STATION PERMITS (New Part)

1) Rulemaking: No docket presently reserved.

A) Description:

Solid waste transfer stations currently are regulated under 35 Ill. Adm. Code 807. The Part 807 rules were developed primarily for solid waste landfills. As applied to transfer stations, they are very general with many of the specific requirements for transfer stations imposed through permit conditions under Section 807.206. Transfer stations are increasing in number and importance in Illinois' waste management system. In addition, the United States Environmental Protection Agency published in June 2002 "Waste Transfer Stations: A Manual for Decision-Making" (EPA530-R-02-002), guidance developed to "promote the use of best practices in transfer station siting, design and operation to maximize facilities' effectiveness while minimizing their impact on the community." In light of these factors, the Illinois Environmental Protection Agency ("Illinois EPA") is developing new Parts that will provide more specific requirements for the design, construction, operation and closure of solid waste transfer stations as well as fees and procedures for obtaining permits. Currently, the draft proposal addresses only municipal waste transfer stations, but it may be expanded to other, non-hazardous wastes prior to submission to the Board.

B) Statutory authority:

These rules will be proposed pursuant to Sections 4(i), 5(f), 21(d), 22, 27 and 28 of the Environmental Protection Act ("Act") [415 ILCS 5/4(i), 5(f), 21(d), 22, 27, 28].

C) Scheduled meeting/hearing dates:

The Illinois EPA anticipates it will file a rulemaking proposal in late 2003 or early 2004. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings in accordance with Sections 27 and 28 of the Act [415 ILCS 5/27, 28].

D) Date Agency anticipates First Notice:

Submission to the Board by the Illinois EPA may be as soon as the Spring or Summer of 2004, after which the Board will cause publication of a Notice of Proposed Rules in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

Generally, small businesses, small municipalities and not-for-profit corporations will not be affected by the proposal unless they receive waste for transfer prior to treatment or disposal. For those that do, the substantive changes in requirements for design, construction and operation are expected to be minimal with many existing transfer stations already in compliance with most of the standards and requirements. However, there may be some expense for upgrading existing transfer stations. In addition, fees for the review and issuance of permits and for periodic facility inspections will be proposed.
