**PUBLIC NOTICE
NOTICE OF PETITION
BY AMEREN ENERGY
MEDINA VALLEY
COGEN, LLC, FOR AN
ADJUSTED STAND-
ARD (AS 2021-008)
BEFORE THE ILLINOIS
POLLUTION
CONTROL BOARD**

This notice is published pursuant to 415 ILCS 5/28.1 and 35 Ill. Adm. Code 104.408 to inform the public of the submittal by Ameren Energy Medina Valley Cogen, LLC ("Ameren"), 1901 Chouteau Avenue, St. Louis, Missouri 63103, of a Petition for an Adjusted Standard with the Illinois Pollution Control Board (the, "Board") pursuant to 35 Ill. Adm. Code 104.402 on May 11, 2021. Ameren's petition, which has been assigned the docket number AS 2021-008, requests an adjusted standard from all sections of 35 Ill. Adm. Code, Part 845 for its Old Meredosia site. In its petition, Ameren requests that new Part 845 be recognized as not applicable to Old Meredosia, but that the site continue to be part of the groundwater monitoring network as applicable to the Bottom Ash and Fly Ash CCRSI, adjacent former ponds whose closures have been approved by the IEPA pursuant to the Meredosia Station Closure Plan. The Board's new Part 845 post-closure care rules will continue to be applicable to the Bottom Ash and Fly Ash CCRSIs' Part 845 post-closure care operational permit. Ameren also proposes that the Adjusted Standard require that Old Meredosia be recognized in the financial assurance instrument Ameren provides for the IEPA approved Meredosia Station Closure Plan pursuant to Part 845, Subpart 1.

Ameren's Old Meredosia, the subject of its petition, is located at Ameren's former Meredosia facility in Morgan County, previously a coal fired power station operated by Ameren and predecessor companies. The Meredosia facility is located at 800 South Washington Street Meredosia, Illinois. Old Meredosia ceased receiving coal ash, closed, and was capped in the early 1970's, when it stopped receiving coal ash. Old Meredosia is now a large mound of dirt in a densely wooded area which is completely covered with mature trees and other flora. Old Meredosia is within the groundwater management zone established by the Meredosia Station Closure Plan covering two more recently closed coal ash ponds, with are in post-closure care. Any person may cause a public hearing to be held in the above-described adjusted standard proceeding by filing a hearing request with the Illinois Pollution Control Board within 21 days after the date of the publication of this notice. The hearing request should indicate the docket number for the adjusted standard proceeding, as found in this notice. The
