

# Save Our Rivers

Dear Gov. Pat Quinn,

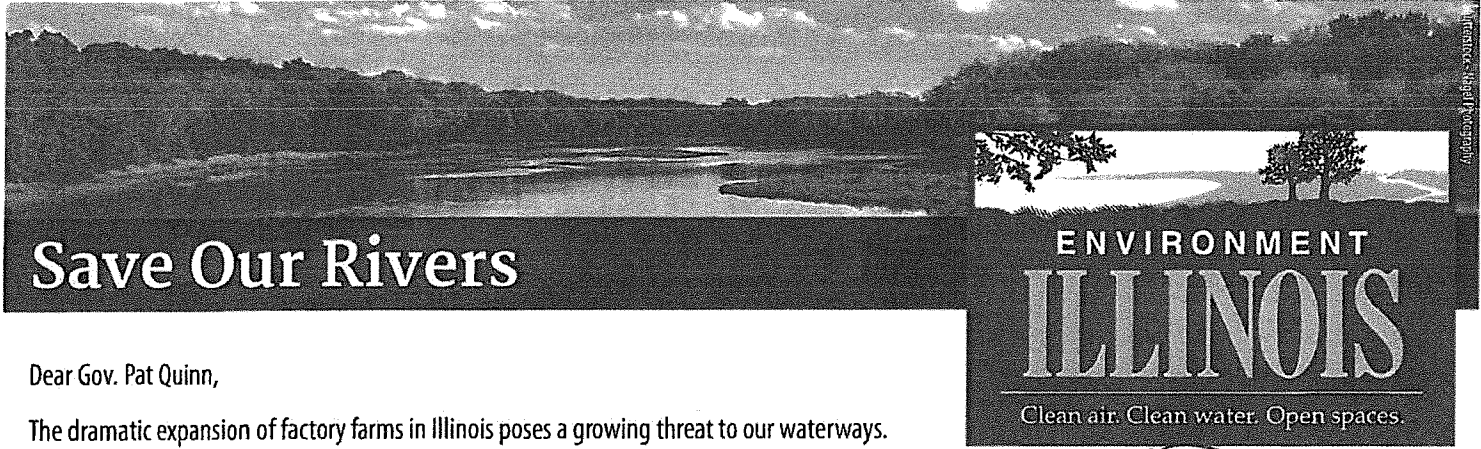

The dramatic expansion of factory farms in Illinois poses a growing threat to our waterways. Already, large-scale releases of animal waste have fouled some of our rivers and streams to the point where they are unsafe for swimming, fishing, drinking and wildlife.

I urge you to support a ban on manure spreading practices that threaten our rivers, streams, or drinking water. I also ask that you ensure the public's right to know about every factory farm operation across the state, so we know where the pollution is coming from. And ultimately, I urge you to support a moratorium on new factory farms in Illinois.

Sincerely,

DB

# Save Our Rivers

Dear Gov. Pat Quinn,

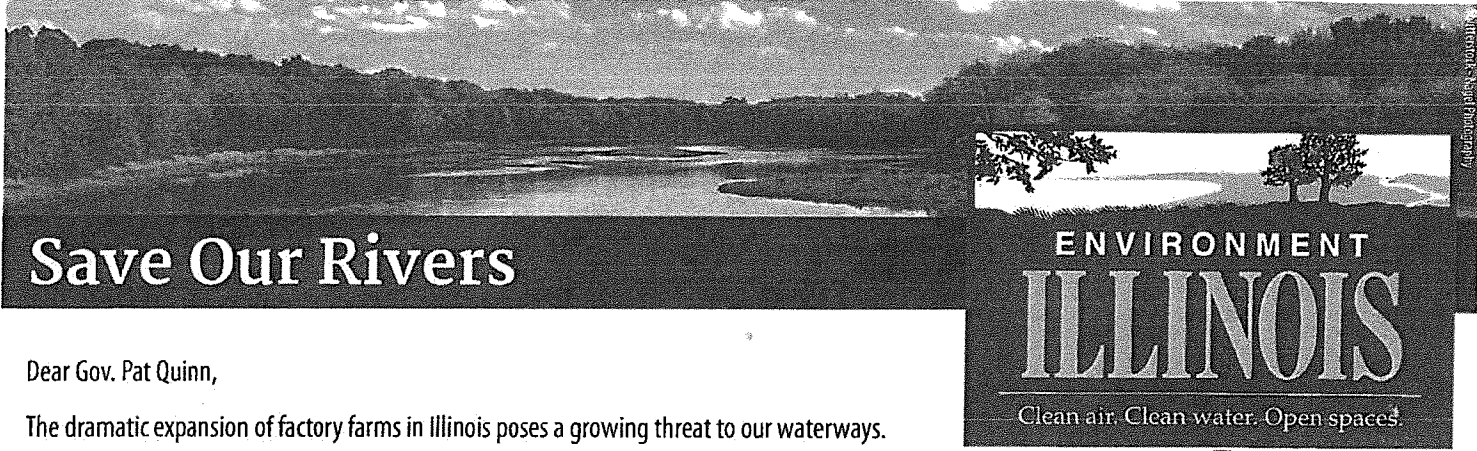

The dramatic expansion of factory farms in Illinois poses a growing threat to our waterways. Already, large-scale releases of animal waste have fouled some of our rivers and streams to the point where they are unsafe for swimming, fishing, drinking and wildlife.

I urge you to support a ban on manure spreading practices that threaten our rivers, streams, or drinking water. I also ask that you ensure the public's right to know about every factory farm operation across the state, so we know where the pollution is coming from. And ultimately, I urge you to support a moratorium on new factory farms in Illinois.

*DB*  
*MA*

Sincerely,
