

Re: Case No. R15-21 (Rulemaking - Air)

Dear Members of the Illinois Pollution Control Board and IL EPA:

#71

As a resident in the Peoria and Tazewell county area, I live in a community where it is unsafe to breathe. I respectfully request you reject the proposed Non-Attainment Plan for the 1-Hour Sulfur Dioxide National Ambient Air Quality Standards. The current draft rule falls short of protecting my community from sulfur dioxide (SO₂), a respiratory irritant associated with the onset of asthma attacks and other health conditions, and must be strengthened in the following ways before it can be approved:

Require a stronger emissions limit at the Dynegy ED Edwards coal plant along with an expedited date for the installation of sulfur dioxide pollution controls.

Require NRG Energy's Powerton coal plant to comply with an *hourly* limit on its sulfur dioxide emissions to adequately protect the Peoria and Pekin communities.

Name (Please Print): Jon McGhee Date: 7-24-2015
Address: 7127 N Terra Vista Dr, Unit 104 Peoria, IL 61614
Phone: 309 635-9082 Email: _____

Thank You for Defending Clean Air!

I would like to:

Attend a hearing before the Illinois Pollution Control Board in Pekin on August 4th, 10:30 AM

Signing this postcard makes you a participant in Sierra Club's local Beyond Coal Campaign. As a participant, you'll stay informed and involved with the latest news on this campaign from the Sierra Club.

I respectfully request you reject the proposed Non-Attainment Plan for the 1-Hour Sulfur Dioxide National Ambient Air Quality Standards. The current draft rule falls short of protecting my community from sulfur dioxide (SO₂), a respiratory irritant associated with the onset of asthma attacks and other health conditions, and must be strengthened in the following ways before it can be approved:

Require a stronger emissions limit at the Dynegy ED Edwards coal plant along with an expedited date for the installation of sulfur dioxide pollution controls.

Require NRG Energy's Powerton coal plant to comply with an *hourly* limit on its sulfur dioxide emissions to adequately protect the Peoria and Pekin communities.

Name (Please Print): JAMES KEFLING Date: 7-10-15

Dear Members of the Illinois Pollution Control Board and IL EPA:

As a resident in the Peoria and Tazewell county area, I live in a community where it is unsafe to breathe. I respectfully request you reject the proposed Non-Attainment Plan for the 1-Hour Sulfur Dioxide National Ambient Air Quality Standards. The current draft rule falls short of protecting my community from sulfur dioxide (SO₂), a respiratory irritant associated with the onset of asthma attacks and other health conditions, and must be strengthened in the following ways before it can be approved:

Require a stronger emissions limit at the Dynegy ED Edwards coal plant along with an expedited date for the installation of sulfur dioxide pollution controls.

Require NRG Energy's Powerton coal plant to comply with an *hourly* limit on its sulfur dioxide emissions to adequately protect the Peoria and Pekin communities.
