Illinois Pollution Control Board, cc: Dynegey CEO Robert Flexon

Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

It is time to take a stand and put the law ahead of shareholders. and the air of the state of Illinois - again more important than Dynegey shareholders.

It is the law so enforce it. and, there must be fines in place for violations - which we sure could use during these times.

No more free rides. Not where clear air is concerned.

Sincerely,
Nanci Schubert

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Dear Governor,

I live in Chicago where our city council is almost certainly going to pass an ordinance mandating energy use benchmarking for commercial and residential buildings. Public and private concerns are looking at ways to improve energy use and get a return on investment for the future of more sustainable energy use. Coal plants are not part of this future.

You appear to be poised to set us back years, to foul the air. Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

A concerned voter
Lorraine Kells
