The time to stop this is NOW! Further extensions just cause greater harm. We pay with our health every time we let companies skate by the law. Citizens United would have us believe that corporations are people, yet when people are caught breaking the law, they pay in fines and/or jail time. If they continue to do so again and again, then the consequences are escalated. Why, then, do corporations not pay the price? This abuse of the law will never end until we all stand and say "No more." Please show us that you have the courage to do what's right and tell Dynegy that they must become compliant with Clean Air Standards.

Sincerely,
Melody Danley

Coal has for too long been able to externalize much of its true cost by creating problems that everyone else pays for. These plants are probably having a hard time competing with renewable energy. That's just as it should be.

We fought hard to pass our environmental laws, but the laws do no good unless they are enforced. Remember that you work for me as a citizen of Illinois, and do the job my representatives have directed you to do.

Thank you.

Illinois Pollution Control Board, cc: Dynegey CEO Robert Flexon

Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Sincerely,
Angel Sides
