Open Dump Inspection Report Narrative

This unpermitted site was inspected on September 10, 2003 by this author representing the Agency. The inspection was conducted as a follow-up to an August 22, 2003 reconnaissance inspection that revealed waste on the ground west and northwest of the house. The inspection took place from approximately 8:52 to 9:13 A.M., and six photos were taken during the inspection {Photos 001-006}. Weather was clear and warm with calm wind and dry soil conditions. Mr. Luther Coleman, the resident and apparent owner of the property, was interviewed during the inspection. Officer Tom Leverett of the Harrisburg Police Department accompanied me for security purposes.

General Remarks

This site is located at 624 W. Logan on the west side of Harrisburg, Illinois. Mr. Luther Coleman lives at, apparently owns, and operates the site. Mr. Coleman's mailing address is 624 W. Logan, Harrisburg, IL 62946, and his phone number is 618/252-4818. According to Mr. Coleman, he had surgery last August (2002), and has not hauled waste as a trash hauler since that time. Upon inquiry, Mr. Coleman advised that his daughter, Aretha (last name not known), hauled until recently, stopping approximately 2 months prior to the inspection. Aretha currently resides at 911 Jackson Street in Harrisburg, according to Mr. Coleman.

Inspection Findings

Officer Leverett and I arrived at the site, and I went to the door of the house, knocking twice. After waiting a few minutes with no answer, I proceeded west of the house, where there were three piles of waste and pick-up loaded with waste. I took two photos, one of what was apparently a tarped pile of waste {Photo 001} and the second of a Ford truck loaded with waste {Photo 002}. The truck was dark blue/black and gray with no license plate. The tarp was not moved, but waste was visible at the edges of the tarp. That pile was estimated at approximately 8' by 10' and 2' tall. The Ford truck had a tarp on it as well, but again, apparent waste was noted protruding from the tarp. Waste volume in the truck was estimated at 5' by 6' and 2' high. After taking the first two photos, I heard a noise from the house and Officer Leverett noted that Luther was coming out of the house.

At that time, I stopped taking photos and returned to the porch to speak to Mr. Coleman. I told Mr. Coleman who I was and why I was there. I stressed that the officer was

requested merely to keep the peace, that he (Mr. Coleman) was not being arrested, and that I was just trying to figure out the status of the site. I briefly interviewed Mr. Coleman, and he provided the information previously noted in the "General Remarks" section of this report. In addition, Mr. Coleman said that he had previously hauled trash routes in Harrisburg and Eldorado. I asked Mr. Coleman when the waste under the tarp was brought in, and he replied that it "had been tarped all along". When I repeated my question, Mr. Coleman replied to the effect of "about a month".

With regard to the trash route, I asked Mr. Coleman where he and his daughter routinely took their trash when they were running routes. Mr. Coleman noted that Saline County Landfill had shut down, so they had taken their trash to Marion. I clarified that he was referring to the Marion Transfer Station, and mentioned that there was a permitted landfill out by Galatia (West End Disposal Facility). Mr. Coleman, referring to the West End facility, said something like "I won't deal with that guy".

I pointed out a Dodge truck along the east side of the driveway that had bags of garbage in it. Mr. Coleman said that his daughter brought that truck in the day before, as she was cleaning out some stuff at her home. It is noted that the Dodge truck, shown in Photo 006, appears to be the same truck observed on this property from off-site on August 22, 2003. On that date, the truck was full of waste and had stock racks on it.

I asked Mr. Coleman how far over to the west he owned, and he said that he owned to the ditch. I told him that I would like to take photos and look around, asking if that was OK, but he did not reply. I repeated my statement differently, saying that as long as he didn't object, I was going to make some observations and take some photos. Again, Mr. Coleman said nothing so I proceeded to make brief observations and take photos while Mr. Coleman watched me.

North of the aforementioned tarped waste, three other piles of waste were observed {background of Photo 002, Photos 003-005}. These piles were each conservatively estimated at 8' by 8' and 2' tall at their maximum height, and they included waste such as demolition debris, metal, a few tires, etc. After making physical observations, I briefly spoke to Mr. Coleman prior to leaving the site. I told him that I did not know what would happen next in this matter, but that he obviously had some cleaning up to do. Mr. Coleman agreed, and said that he had done some clean-up recently, but only worked on it as he felt able to.

Summary of Inspection Findings

On this date, apparent violations were noted in reference to open dumping and the acceptance of waste without meeting permit requirements. Waste was observed open dumped on the ground in a number of locations. With regard to the acceptance of waste from off-site, waste was observed in two different vehicles, indicating that waste is being brought into the site. In addition, Mr. Coleman's statement that the waste on the ground under the tarp has been there for "about a month" acknowledges that it came from off-

site. Based on this information, the following apparent violations are being cited at this time.

Sections 21(a), 21(p)(1), and 21(p)(7) are being cited because waste, including demolition debris, have been open dumped at this site resulting in litter.

Sections 21(d)(1) and 812.101(a) are being cited because waste has been accepted at this waste-disposal facility without a permit, nor has any permit application apparently been submitted to the Agency in an effort to obtain such a permit.

Sections 21(d)(2) and 21(e) are being cited because violations of the Act and Board regulations were observed at the time of this inspection.

A probation order for case # 97-117-286, entered on February 20, 1998 in Saline County Circuit Court, states the following as condition # 21 for Luther Coleman: "not conduct a waste disposal operation without a permit..." Based on evidence obtained on the date of this inspection, it appears that Mr. Coleman is operating a waste disposal operation without a permit.
