**General Comments:**

On January 20, 2004 at 11:15 A.M., I conducted an inspection at the Michael Moreton Property, located at the southeast corner of the intersection of county roads 1380 N and 2330 E, T.13N-R.10E., Ashmore Township, Coles County, Ashmore, Illinois. This inspection was conducted as a follow up to an inspection Conducted on September 7, 2000, which resulted in an Administrative Citation Warning Notice being sent alleging open dumping of an oily substance, refuse, and used tires. The purpose of this inspection was to determine regulatory status and evaluate compliance with the Illinois Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). The inspection consisted of walking around the site and taking pictures, no one was present to represent the property owner. The weather was sunny, the temperature 28 degrees.

**Findings:**

When I arrived on the property near the north entrance I saw a Pile A, a pile of metal, plastic, and 10 used tires just inside the entrance (see photos #1 and #2). The tires contained water in the form of ice (see photo #2). A short distance further south I saw an area where plastic, wood, and metal was scattered on the ground (see photo #3). To the west I saw pile B, a pile of dimensional lumber measuring 10' x 10' x 2' (see photo #4). The dimensional lumber was weathered and coming apart. It was not protected from the weather and had deteriorated. To the south I saw a semi trailer containing 66 used tires (see photo #5) and outside on the ground to the west of the trailer I saw 80 used tires (see photos #6 and #7). Near the center of the property I saw another approximate 18 used tires piled on the ground (see photo #8). Many of the used tires contained water in the form of ice (see photo #9). East of this tire pile I saw two drums that contained an unknown liquid and I saw an area around the drums measuring approximately 8' x 4' where the soil was stained black with some oily material (see photo #10). Further south I saw a trailer that contained approximately 33 used tires (see photos #11 and #13). Along the east property line I saw several older mobile homes (see photo #12). Directly across the property at the west property line I saw another pile of approximately 28 used tires (see photo #15). Just north of these used tires I saw pile C, a large pile of wooden "ammo crates" (see photo #14).

These wooden boxes were present during the September 7, 2000 inspection and are not covered or otherwise prevented from deteriorating. As I walked back to the north entrance of the property, west of the north entrance I saw pile D, a pile of demolition waste measuring approximately 14' x 30' x 3' consisting of concrete and asphalt (see photo #16). I left the site at 12:10 P.M.
