JURISDICTION

This Administrative Citation is issued pursuant to the authority vested in the Illinois Environmental Protection Agency by Section 31.1 of the Illinois Environmental Protection Act, 415 ILCS 5/31.1 (2002).

FACTS

1. That Douglas S. Carrico, d/b/a/ Carricos Auto Heap ("Respondent") is the present owner of a facility located at 19291 Carrico Road, Kane, Greene County, Illinois. The property is commonly known to the Illinois Environmental Protection Agency as Kane/Carricos Auto Heap.
2. That said facility is an open dump operating without an Illinois Environmental Protection Agency Operating Permit and is designated with Site Code No. 0618115004.
3. That Respondent has operated said facility at all times pertinent hereto.
4. That on October 28, 2003, Jan Mier of the Illinois Environmental Protection Agency's Springfield Regional Office inspected the above-described facility. A copy of her inspection report setting forth the results of said inspection is attached hereto and made a part hereof.

VIOLATIONS

Based upon direct observations made by Jan Mier during the course of her October 28, 2003 inspection of the above-named facility, the Illinois Environmental Protection Agency has determined that Respondent has violated the Illinois Environmental Protection Act (hereinafter, the "Act") as follows:

- (1) That Respondent caused or allowed the open dumping of waste in a manner resulting in litter, a violation of Section 21(p)(1) of the Act, 415 ILCS 5/21(p)(1) (2002).

Those hearing costs shall be assessed in addition to the One Thousand Five Hundred Dollar (\$1,500.00) statutory civil penalty for each violation.

Pursuant to Section 31.1(d)(1) of the Act, 415 ILCS 5/31.1(d)(1) (2002), if Respondent fails to petition or elects not to petition the Illinois Pollution Control Board for review of this Administrative Citation within thirty-five (35) days of the date of service, the Illinois Pollution Control Board shall adopt a final order, which shall include this Administrative Citation and findings of violation as alleged herein, and shall impose the statutory civil penalty specified above.

When payment is made, Respondent's check shall be made payable to the Illinois Environmental Protection Trust Fund and mailed to the attention of Fiscal Services, Illinois Environmental Protection Agency, 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276. Along with payment, Respondent shall complete and return the enclosed Remittance Form to ensure proper documentation of payment.

On October 28, 2003, I conducted a re-inspection of the above-referenced site. The owner, Douglas Carrico, was sent a Violation Notice L-2002-01430 on 1/14/03. An extension was given to the compliance deadline until 7/1/03. The property is an old salvage yard that closed in 2003. The Illinois EPA removed 1,000 tires under a Consensual Removal Agreement and Mr. Carrico has sent in receipts for removal of over 3,300 tires. Max Mullins Salvage in Mt. Olive, IL has removed the majority of vehicles on site.

I arrived at 11:55 a.m. Mr. Carrico lives across the street from the salvage yard. I knocked on the door of the house, but no one answered. I proceeded across the road to the salvage yard. There appeared to be little change in the site. Vehicles are scattered in the front of the shed (see photo #001). One truck had six tires off the rim on the back (see photo #002). Tires, metal and auto parts are scattered across the east half of the shed (see photo #003). By the auto crusher (see photo #004), the ground is littered with glass, metal, plastic and oil-stained soil. A school bus (see photo #005) is new to the site. Several areas looked like what is shown in photo #006, with glass, metal, plastic, car parts and vehicles scattered around. Although a roll off box is on site, it did not appear there had been any attempt to consolidate or sort waste.

More vehicles, parts and tires on axles are to the north of the shed (see photos #008, #009, and #010). Vegetation has grown up around these wastes. One area contained rusted metal pipes and gas lanterns (see photo #012). Two tractor tires off rim were observed (see photo #012). The inside of the shed is filled with car parts, tools and tires (see photo #013). I estimated approximately 15 vehicles and 75 tires are still on site. I departed at 12:15 p.m.

Violations observed at the time of the inspection are noted on the attached checklist.
