Chicago, IL 60601

RE: Case No. PCB 03-221

PC #31

Dear Ms. Gunn:

We are writing to inform you of our support of the McHenry County Board's decision to deny Mr. Lowe's application for a proposed waste transfer station in Cary. We believe the Board's decision should be upheld based on the following reasons:

The facility is so designed, located and proposed to be operated that the public health, safety and welfare will be protected.

The facility is located so as to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property.

The plan of operations for the facility is designed to minimize the danger to the surrounding area from fire, spills, or other operations accidents.

Thank you for your attention to this matter.

Sincerely,

Michael & Julia Hurley
